PROFESSIONAL SUMMARY

QA Engineer & Product Specialist with 7+ years of hands-on experience in mobile/web testing, product analysis, and cross-functional leadership. Proven expertise in STLC, automation tools (Selenium, Appium), debugging, reverse engineering, and SDLC optimization. Adept at delivering bug-free, scalable apps through Agile methodologies and collaborative practices.

WORK EXPERIENCE

App Successor – Quality Assurance Engineer (Mobile & Web) [Hybrid]	Noida Apr 2025 – Dec 2025
<ul style="list-style-type: none">Test Android/iOS applications and responsive websites, ensuring cross-device compatibility.Collaborate with developers & product managers in agile sprints to identify and resolve defects early.Document test cases, report bugs in Jira/Trello, and track testing KPIs.Build exploratory test suites and learn automation tools (Selenium, Appium, JMETER).	
App Analytics – QA Team Lead [Hybrid]	Noida May 2023 – Mar 2025
<ul style="list-style-type: none">Managed QA team of 4, mentoring and driving performance improvement (+75% productivity).Handled test planning, execution, and defect analysis for multiple parallel projects.Integrated tools like Slack, Trello, and Jira for workflow automation and status reporting.	
App Analytics – Product Manager [Hybrid]	Noida May 2022 – Apr 2023
<ul style="list-style-type: none">Oversaw mobile app delivery lifecycles using SDLC and requirements analysis.Utilized debugging tools (Burp, Charles) and platforms (ADJUST, BRANCH, APPSFLYER).Solved functionality issues and worked with QA for continuous releases.	
App Analytics – Product Analyst [Hybrid]	Noida Jun 2018 – Apr 2022
<ul style="list-style-type: none">Conducted in-depth analysis of Android & iOS apps, improving UI/UX flow.Created app flow documentation and worked on debugging, problem-solving.Led cross-functional teams and streamlined product enhancements.	
SpancoTech – Tech Sales Executive [WFO]	New Delhi Nov 2017 – Mar 2018
<ul style="list-style-type: none">Delivered consistent sales performance and provided technical product support.Resolved product issues and worked with stakeholders to expand market reach.	

PROJECT HIGHLIGHTS

1. QA Automation Project – Built basic automation scripts with Appium & Selenium, improving regression testing efficiency by 40%.

2. Android App Projects –

Soundscape – Sleep & Meditate

- Led end-to-end testing for sleep-focused audio experiences, ensuring seamless playback across devices.
- Validated sound quality, loop transitions, offline mode & app stability.
- Designed test cases to cover meditation flows, mood-based playlists & user personalization.
- Improved user retention by identifying UX roadblocks and reporting critical usability bugs.

Journal IT – Personal Notes & Diary

- Tested core journaling features including rich-text editing, media attachments & secure storage.

- Ensured smooth sync across multi-device setups with zero data loss.
- Performed UI/UX testing to maintain a clean, distraction-free writing experience.
- Verified privacy, PIN lock, and backup/restore flows for user safety.

Trending Today – Breaking News

- Tested API-driven content feeds for accuracy, freshness & fast load times.
- Performed stress testing on high-traffic modules to ensure real-time updates.
- Validated category filters, infinite scroll, share functions & push notifications.
- Collaborated with dev team to optimize feed performance and reduce crashes.

Speaker Cleaner

- Tested resonance cycles, audio frequencies & vibration-based cleaning flows.
- Ensured the tool works consistently across major phone brands and OS versions.
- Identified hardware-specific bugs improving feature reliability.

Aura Sleep – Sleep Music & Calm

- Tested Sleep Music, Calming Sounds, Nature Sounds & Rain Sounds for smooth playback.
- Verified personalization features like Sleep timer with fadeout, Custom Sound Mixes.
- Improved feature quality by performing regression, functional & accessibility testing.

CORE SKILLS

- Mobile App Testing (Android & iOS)
- Functional, Regression & Exploratory Testing
- Automation Testing (Appium - Completed, Selenium – Learning Phase, Playwright – Learning Phase)
- Reverse Engineering (Frida, apktoo, smali, JavaCode)
- Tools: Jira, Trello, Slack, Charles, Burp Suite, Fiddler
- SDLC & STLC | Agile & Scrum
- Bug Tracking & Reporting | Test Planning & Execution
- Scripting: Python | API Testing | Web Testing
- Team Leadership | Collaboration | Continuous Learning

SOFT SKILLS

- Analytical Thinking | Attention to Detail | Problem Solving
- Communication & Teamwork | Time Management
- Integrity | Adaptability | Leadership & Mentorship

EDUCATION

- B.Tech (Computer Science) – AKTU, Ambalika Institute, Lucknow – 2016
- Intermediate (PCM) – Kendriya Vidyalaya, Barabanki – 2012
- High School – Kendriya Vidyalaya, Barabanki – 2010

CERTIFICATIONS & TRAINING

- Selenium PYTHON : (Basic, Advance, Framework) – Udemy(Ongoing)
- Playwright JS/TS Automation Testing from Scratch & Framework – Udemy(Ongoing)
- Appium Mobile Testing (Android / iOS) from Scratch + Frameworks - Udemy
- Generative AI Foundational Certificate Course – Udemy
- SDLC – Great Learning
- Jira Project Management – Great Learning
- Data Science Foundations – Great Learning
- Product Management – Great Learning
- Basics of Data Analytics – MASAI
- AMCAT Certified Data Processing Specialist
- Core Java – HCLCDC, Lucknow
- Core Java – Trisect, Noida

INTERESTS

- Electronic Dance Music (EDM) | Traveling
- Cricket | Cooking
