CAREER OBJECTIVE

Seeking a challenging role to utilize my skills in HTML, CSS, JavaScript, React and Java frameworks to design and develop dynamic web solutions that enhance user experience and support organizational goals.

EDUCATION

QUALIFICATION	COLLEGE	YEAR	CGPA
MCA	Telangana University	2025	8.38
B.SC(MPCS)	Gnanodaya Degree College	2023	8.74
MPC	Narendra Co-operative Junior College	2020	9.56
SSC	Vijetha High School	2018	9.8

PROJECTS

Face Recognition Attendance System | SpringBoot, React, Mysql

- Built a face recognition-based attendance system using Spring Boot, React, and MySQL.
- Integrated OpenCV face recognition to automate and secure attendance marking.
- Implemented REST APIs and database management for users and attendance records.

Customer Churn Prediction | ReactJS, Tailwind CSS, Vite, Node.js, Supabase

- Built a customer churn dashboard using ReactJS, TypeScript, Tailwind CSS, and Vite.
- Created Node.js APIs to process customer data and provide churn insights.
- Used Supabase to store customer records and deliver real-time results.

Chatbot | HTML, CSS, JavaScript

- Built an interactive chatbot web application for handling user queries.
- Designed responsive front-end using HTML and CSS for smooth user experience.
- Implemented JavaScript logic for dynamic responses and functionality.

SKILLLS

- Frontend: HTML5, CSS3, JavaScript, Bootstrap, React
- Backend: Java, JDBC, Spring, SpringBoot, python
- Database: SQL,MySQL, Oracle
- Tools & Frameworks: Git, Eclipse, VScode

ACHIEVEMENTS

- Completed a Web Development Internship at Coreline Solutions, gaining hands-on experience
