## PROFESSIONAL SUMMARY

Results-oriented **Java Developer** with over **2.5 years of total experience** in **Java/Spring Boot backend development** and **Web Development**. Skilled in designing and developing scalable, secure, and high-performance applications using modern frameworks and microservice architecture. Adept at analyzing business requirements, implementing RESTful APIs, and collaborating in agile development environments. Seeking a challenging role to contribute technical expertise and deliver robust software solutions.

## TECHNICAL SKILLS

**Languages** Java 8, Apex, JavaScript, HTML, CSS, SOQL, SQL, MongoDB

**Frameworks** Spring Boot, Spring MVC, Collections, Hibernate, REST API, Salesforce, LWC, JDBC

**Databases** MySQL, MongoDB, Oracle

**Tools** Maven, Postman, Spring Tool Suite (STS), JIRA, Eclipse, Visual Studio Code, Oracle SQL Developer, MongoDB Compass

**Other Skills** Core Java Development, Streams and Lambda Expressions, Functional Interfaces, RESTful API Design, Third-Party API Integration, Spring Security (Authentication & Authorization), Java Scheduler (Cron Jobs), Spring Mail Integration, Microservices Design and Implementation, Docker Containerization, Logging and Monitoring (SLF4J, Log4j), Object-Oriented Programming (OOP), Exception Handling, Debugging, and Spring Batch Processing.

## PROFESSIONAL EXPERIENCE

### TechMatrix Consulting

Noida

Software Engineer

July 2025 – Present

Developed custom **Apex triggers** and **Lightning Web Components (LWC)** to automate workflows.

Created **custom objects, validation rules, and flows** to streamline business processes and improve data accuracy.

Applied Salesforce security features (**Profiles, Roles, Permission Sets**) to ensure secure data access.

### Suntech Global Infosolutions Pvt. Ltd.

Noida

Software Engineer

July 2022 – July 2024

Designed and maintained **RESTful APIs** using **Spring Boot** and integrated them with **MySQL** and **MongoDB** databases.

Collaborated with QA teams using **Postman** and **JUnit** for integration and functionality testing.

Improved application performance by 25% by optimizing **JPA queries**, adding database **indexes**, implementing **pagination**, and introducing **Spring Cache (Ehcache)** for frequently accessed data.

Worked within a **microservices architecture**, ensuring scalability, maintainability, and seamless API communication.

## PROJECTS

### Smart Store (Retail)

Designed and implemented a high-performance **Dashboard API** for real-time analytics and data visualization, improving decision-making efficiency.

Developed a scalable **PDF Generation API** to dynamically generate and deliver custom reports, reducing manual effort by 80%.

Built a robust **Flash Sale API** to generate real-time sales summaries and daily performance reports.

### Self-Checkout Kiosk (Retail)

Integrated **RazorPay** payment gateway to enable seamless and secure online transactions.

Connected **Bilzo** and **WhatsApp APIs** for digital receipt management and improved customer engagement.

### Self-Checkout with RFID (Retail)

Integrated **RFID technology** for automated asset tracking, improving inventory accuracy by 30%.

Configured **RFID Detacher** systems to automate tag removal, streamlining the checkout process.

### Lido Mobile POS

Developed reliable APIs for daily retail operations, enabling smooth business workflows and compliance tracking.

## EDUCATION

### Jagan Institute of Management Studies (JIMS), Rohini

New Delhi, India

Master of Computer Applications (MCA) in Information Technology

July 2020 – June 2022

### Sirifort Institute of Management Studies, Rohini

New Delhi, India

Bachelor of Computer Applications (BCA) in Information Technology

July 2017 – June 2020
