Bachelor of science in information technology 2023- PRESENT
A.E. Kalsekar Degree College CGPA : (PERVIOUS SEMESTER) 8.20 / 10

HSC (2023)

ST Marry junior college 68.33%

SSC (2020)

ST Marry convent High School 75.20%

PROJECTS

- Multi-Page React Frontend – React + Tailwind + Vite**
Built a clean, responsive multi-page UI with Tailwind CSS.
Added small functionalities (forms, navigation, state handling).
Focused on component structure and consistent UI design.
- Basic Login Page – HTML, CSS, JavaScript**
Designed a simple and responsive login UI from scratch.
Implemented basic form interactions and validation using JavaScript.
- Credit Card Randomizer – Python**
Created a Python script that generates random (dummy) credit card numbers.
Practiced logic building, functions, loops, and formatting.
- MongoDB Practice (Tutorial-Based)**
Used MongoDB earlier to store simple data.
Followed tutorials to understand collections, documents & basic CRUD.
(Beginner-level experience, but willing to relearn and improve.)
