## Profile

---

SQL Developer with a strong foundation in designing and optimizing robust databases to support dynamic, data-driven applications. Completed a 6-month internship, gaining practical experience in crafting efficient SQL queries, developing Views, Stored Procedures, and Functions aligned with business objectives. Proficient in using SQL Server Management Studio, with knowledge of data migration, query performance tuning, and upholding database security standards. Recognized for strong problem-solving abilities, meticulous attention to detail, and a focus on delivering high-quality, performance-oriented data solutions.

## Professional Experience

---

2025/01 – present Hyderabad, India

### Database Administrator

DELOITTE USI

- Developed and optimized SQL queries, stored procedures, and views to support business reporting and operational needs.
- Worked on database performance tuning, indexing, and data validation for accuracy and efficiency.
- Actively participated in client calls, sprint planning, and resolving issues in coordination with global teams.

### SQL Developer ( Intern )

SGHI-TECH

- Hands-on experience with SQL Server Integration Services (SSIS), with a strong ability to create and manage database objects such as tables and views.
- Expertise in designing and developing Databases, Tables, Stored Procedures, DDL/DML Triggers, Views, User-Defined Data Types, Functions, and Cursors.
- Demonstrated analytical mindset with the ability to develop innovative solutions to complex challenges.
- Strong communication skills, adept at teamwork, and fostering effective collaboration with team members.
- Excellent analytical and problem-solving abilities, ensuring optimal performance.

## Projects

---

## DIVISION BUDGET SOFTWARE (GOV.BUDGET ERP) TECHNOLOGY

*Client Name: Government of Maharashtra (PWD)*

- The Division Budget Software is a web application developed using ASP.NET technology, specifically designed for the Public Works Department (PWD), Pune Division (East, North, South Building).
- The application facilitates the generation of various reports, including **Head Wise Report**, **Head Wise Abstract Report**, and **SMS Report**, among others.
- Features include automated generation and delivery of SMS, emails, Excel files, and WhatsApp messages, streamlining communication and reporting processes.

### Project: American Water – Infrastructure Support

- To Ensure accurate, efficient and real-time reporting of infrastructure services metrics by managing and optimizing SQL Databases
