- Proficiency at grasping technical and functional concepts quickly and utilizing the same in a productive manner.
- Excellent problem solving skills with a strong technical background and good interpersonal skills.
- Having sound knowledge on Database Objects.
- Having Basic knowledge on Linux and Unix Commands.

### PROJECT

#### LMS(Loan Management System)

This Project is about the loan management System. It had three phases Sanction, Pre Sanction, Post Sanction. It is a huge repository of client data where all the information of client background & current status is maintained and on the basis of that the loan is sanctioned.

The information is generated & maintained by risk rater & various Committee then the analysis of the risk involved in this loan is calculated by the committee & finding out if any possibility of new business from there is also analyzed & on the basis of that various control reports & Proposal reports, Credit reports are generated.

### SKILLS

- Database management system
- RDBMS
- Agile Methodology
- Oracle SQL & PL/SQL Development
- view & Materialized View
- Joins, Sub query
- Indexing
- Partitioning
- SQL loader & UTL\_file
- External Table
- Cursor
- Exception Handling
- Collections
- Stored Procedure
- Functions & Pipelined Function
- Dynamic SQL
- Package Management
- Trigger
- Performance Tuning
- Unix
- Python
- ETL

### EDUCATION

#### BERHAMPUR UNIVERSITY

- Completed Bachelors of science from Berhampur university on the year of 2023.

### LANGUAGES

- English
- Hindi
- Odia
