PROFESSIONAL SUMMARY

Motivated Computer Science Engineering graduate and Fresher **MERN Stack Developer** with practical experience in developing full-stack web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Solid foundation in JavaScript, REST APIs, authentication, and database integration. Enthusiastic about building scalable applications, writing clean code, and continuously enhancing full-stack development skills.

TECHNICAL SKILLS

- **Languages:** JavaScript, HTML, CSS, Python
- **Frameworks/Libraries:** React.js, Redux, Node.js, Express.js, Bootstrap, Tailwind CSS, Socket.IO
- **Databases/ORM:** MongoDB, MySQL, Mongoose
- **Tools & Concepts:** Git, GitHub, VS Code, REST APIs, JWT, User Authentication & Authorization, Responsive Design, Performance Optimization, Figma, Webflow, Agile Development

PROJECTS

ConvoSync - A Real-Time Chat Application | Vite, React.js, Redux, Tailwind CSS, Node.js, Express.js, MongoDB, Socket.IO, Cloudinary, JWT | [LINK](#)

- Developed a real-time chat application using the MERN stack, incorporating JWT authentication and role-based access control for secure media sharing via Cloudinary.
- Engineered a high-availability backend to support 20+ concurrent users by utilizing Socket.IO and implementing efficient socket handling.
- Designed and implemented a responsive UI with Tailwind CSS and applied lazy loading for components, resulting in a 25% reduction in page load time.

Mynta Clone - Full-Stack E-commerce Platform | React.js, Redux, Bootstrap, Node.js, Express.js, MySQL | [LINK](#)

- Engineered a full-stack e-commerce site with features like Add to Bag, Wishlist, and dynamic product filtering.
- Converted the frontend into a full-stack application using Express.js and MySQL for persistent data storage and real-time updates.
- Integrated Redux for robust state management and built custom REST APIs, optimizing backend performance and reducing API response time by 30%.

Portfolio Website | React.js, Bootstrap | [LINK](#)

- Developed a professional portfolio using React.js and Bootstrap to showcase projects, skills, and achievements.
- Implemented a responsive, clean layout with project filtering and smooth navigation to enhance the user experience.

WORK EXPERIENCE (VIRTUAL PROGRAMS)

Accenture - Software Engineering Job Simulation (Virtual Internship) Virtual Internship by Forage, 2025 | [\[LINK\]](#)

- Applied Agile development lifecycle principles across 5 hands-on software tasks, simulating a real-world software project environment.
- Wrote Python unit tests and debugged complex backend logic in a simulated healthcare application scenario.
- Conducted User Acceptance Testing (UAT) and analyzed functional requirements to propose quality assurance (QA) improvements.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science Engineering 2025

Princeton Institute of Engineering & Technology for Women, Hyderabad [Dec 2021 – Jul 2025] | CGPA: 7.45

Relevant Coursework: Data Structures, Object-Oriented Programming (OOPs), DBMS, Web Technologies, OS

XII (MPC) APJ Abdul Kalam Junior College, Hyderabad [2019 – 2021] | Percentage: 86.4%

CERTIFICATION

- **React & Redux**, Complete Coding | Oct 2024
- **Web Development**, Udemy | Sep 2024
- **Software Testing**, Great Learning Academy | Sep 2024
- **UI/UX design**, Great Learning Academy | Sep 2024
