Professional Summary

Java Full Stack Developer with strong foundation in **Java, Spring Boot, RESTful APIs, SQL, and front-end technologies (HTML, CSS, JavaScript)**. Hands-on experience in building **end-to-end web applications**, backend services, and database-driven systems. Familiar with **React basics**, Git-based version control, Docker, and CI/CD fundamentals. Strong problem-solving skills, eager learner, and effective team player ready to contribute to scalable software solutions.

Technical Skills

Programming Languages: Java, Python, Node.js, SQL, JavaScript, Dart

Frameworks: Spring Boot, Express.js, Flutter

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Firebase, Docker, Git, Jenkins (CI/CD basics)

Databases: MySQL, Oracle SQL, Firebase Firestore

Tools: Postman, GitHub, VS Code

CS Fundamentals: DSA, OOP, DBMS, OS Basics

AI Tools: Basic understanding of ML concepts, experience using Python libraries (NumPy, Pandas).

Experience

Software Developer Intern (Backend – Python & Databases)— Zentech Innovation Pvt Ltd (Oct 2025 – Dec 2025)

- Modernized PDF processing workflows and implemented backend components.
 - Ensured cross-platform compatibility across Windows and Linux environments.
 - Worked with MySQL and PostgreSQL for database integration and compatibility.
 - Collaborated with mentors, conducted research, and delivered production-ready Python modules.
 - Migrated legacy Perl-based system to Python, improving maintainability and performance
-

Education

B. Tech – Information Technology

B V Raju Institute of Technology, Telangana (2021–2025)

Intermediate (Class XII)

Sri Chaitanya Mahila Kalasala, Telangana (2019–2021)

Class X

Krishnaveni Talent High School, Telangana (2018-2019)

Projects

Job Portal Web Application

Tech Stack: Java, Spring Boot, MySQL

- Developed RESTful APIs for job posting, authentication, and role-based access control.
- Designed relational database schemas and optimized SQL queries for efficient data retrieval.
- Implemented Spring Security for secure login and authorization workflows.

Camera Crew – Photographer Booking App

Tech Stack: Flutter, Dart, Firebase (Firestore, Auth)

- Developed cross-platform mobile app for event-based bookings.
- Implemented Firestore real-time DB, authentication, and messaging.
- Built backend logic using Firebase Functions.
