## OBJECTIVE

---

Detailed-oriented Electrical and Electronics Engineering graduate with strong knowledge in Java, web technologies, and Spring Boot. Skilled in building responsive web applications and implementing automation systems. Adapted at problem-solving, time management, and learning new technologies quickly. Seeking an opportunity to contribute to technical development, networking, or software-related roles in a dynamic organization.

## TECHNICAL SKILLS

---

**Programming Languages:** Core Java

**Web Technologies:** HTML, CSS, JavaScript, React

**Frameworks:** Spring Boot

**Concepts:** OOPs, Collections, Exception Handling

**Database:** MySQL

**Tools & IDEs:** VS Code, Postman, GitHub

## EXPERIENCE

---

### Project 1

#### Restaurant Website

Technologies: HTML, CSS, Bootstrap, React

Developed a fully responsive website with a dynamic menu, gallery, and contact form.

Improved user experience through optimized layout and interactive components.

### Project 2

#### Smart Irrigation System using GSM

Technologies: Sensors, GSM Module

Built an automated irrigation system using soil moisture sensors.

Implemented GSM alerts and automated motor control to improve water efficiency.

## EDUCATION

---

**M.Tech - (EPS),** KLR Engineering College – 80%

**B.Tech - (EEE),** Anubose Institute of Technology 73%

**Diploma - Electrical & Electronics Engineering,** KLR Engineering College – 90.24%

## KEY SKILLS

---

Problem-solving and analytical thinking

Time management and task prioritization

Quick learner, adaptable to new tools

Strong communication and teamwork skills

## LANGUAGES

---

English, Hindi, Telugu
