PROFESSIONAL SUMMARY

AI & Data Science graduate specializing in Machine Learning and Data Analytics. Proficient in Python, SQL, and Deep Learning, with strong analytical skills for decision making and process optimization. Eager to leverage expertise and contribute to innovative projects in an entry level role

TECHNICAL SKILLS

- **Programming Languages:** Python, R
 - **Database:** SQL
 - **Development & Collaboration Tools:** Jupyter Notebook, VS Code, Google Colab, Microsoft 365(Word, Excel, PowerPoint)
 - **Data Analytics & Visualization:** Power BI, Excel, Data Visualization, Statistical Analysis, Pandas, Matplotlib, seaborn, STATA
 - **AI Technologies:** Machine Learning, Deep Learning
-

EDUCATION

- JCT College of Engineering and Technology. Anna University, Coimbatore.TN 2021-2025
B. Tech-Artificial Intelligence & Data Science,
CGPA:8.2
 - Child Jesus Hr. Sec School, Palayamkottai, TN 2021
HSC (12th) – 89%
 - R.C. Fathima High School, Kayathar, TN 2019
SSLC (10th)- 85%
-

PROJECT

- **Disease Prediction System:** Developed a Machine Learning model to predict a Chances of heart disease using Patient Health data. Using Python, Machine Learning Algorithms, Jupyter Notebook. Focused on Data Analytics and Prediction. This Project Strengthen my understanding of ML workflows and data driven insights.
-

CERTIFICATIONS

- Artificial intelligence With Machine learning Course -AISECT LTD
 - Python with Data Science Internship
 - Data Analysis for Python
 - Python for Data Science
 - Machine Learning with Python
-

LANGUAGES

- Tamil
- English
