CAREER OBJECTIVE

- Motivated and passionate Full Stack Developer with hands-on experience in Java, Node.js, Express.js, React.js, MongoDB, and MySQL, seeking an entry-level position to apply technical skills in building scalable web applications. Eager to contribute to a collaborative team, learn continuously, and support real-world product development.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript.
- **Frameworks / Libraries:** Express.js, React.js.
- **Frontend:** HTML, CSS3
- **Backend:** Node.js, REST APIs, Java
- **Databases:** SQL, MongoDB.
- **Developer Tools:** Git, Visual Studio, IntelliJ IDEA, Eclipse IDE.
- **Core Concepts:** Data Structure and Algorithms, Object-Oriented Programming, Database Management System (DBMS)
- **Soft Skills:** Leadership, Problem-Solving, Time management, Team Collaboration

PROJECTS

- | | |
|--|------------------|
| • SUBY– Multi-Vendor E-Commerce Platform (MERN Stack) | <i>Aug–2025</i> |
| • MongoDB Express.js React.js Node.js JWT | |
| • Engineered a scalable multi-vendor marketplace enabling multiple sellers to manage products, inventory, and orders. Secure REST APIs with JWT authentication & role-based access control (Admin, Vendor, Customer). Developed a responsive React.js frontend with dynamic routing, vendor dashboards, and real-time updates. Integrated MongoDB Atlas for cloud-based storage and deployed backend on Render & frontend on Vercel. | |
| Student Mangement System | <i>july–2025</i> |
| • Technologies Used: HTML5, CSS3, JavaScript, and the MERN stack (MongoDB, Express.js, React.js, Node.js) | |
| • This web-based chat application enables real-time, bidirectional communication between users through | |
| • Built with the MERN stack—MongoDB, Express.js, React.js, and Node.js | |
| • the app offers secure user authentication, instant message broadcasting, and a responsive UI | |
| Mini Quiz Application | |
| • Technologies used – Java (Console-Based) | |
| • Built a console-based quiz game using Core Java with features like lifelines, 50-50, and audience poll. | <i>dec–2024</i> |
| • Implemented OOP concepts, string arrays, loops, conditionals, and exception handling (try-catch). | |
| • Demonstrated use of abstract classes and modular code design in a command-line interface. | |

EDUCATION

B.Tech

Mother Theresa Institute of Engineering and Technology

2020-2026 (Expected)

Intermediate

Govt. Junior College, Nimmanampalle

2020-2022

Secondary School Certificate (SSC)

Z.P High School, Balinayunipalle

2020

INTERNSHIPS

Full-Stack developer (Mentorle)

July(2025) -Aug(2025)

- Developed full-stack web applications using React.js, Node.js, Express.js, MongoDB, and Supabase.
- Implemented user authentication, secure API integrations, and real-time data synchronization features.
- Optimized application performance and workflow efficiency, reducing load times and improving responsiveness.
- Collaborated with cross-functional teams to design and deliver scalable, high-performance product features.

CERTIFICATIONS & ACHIEVEMENTS

- Secured 1st place among 100+ participants in the AI & ML Hackathon 2024 at MTIET, Chittoor.
- Achieved a 4 Star rating in Java on HackerRank, showcasing strong problem-solving skills.
- Completed hands-on training in full-stack development, including front-end and back-end technologies.
- Certified in completion of HTML, CSS, Javascript by Udemy
