## CAREER OBJECTIVE

As a fresher, I am actively seeking a Java Full Stack Developer role where I can leverage my expertise in Java, Spring Boot, and Oracle DB to design and develop web applications. With a strong commitment to continuous learning, I aim to enhance my technical expertise, contribute to organizational goals, and advance my career in software development.

## TECHNICAL SKILLS

- Languages :** HTML/CSS, JS, SQL, Java
- Developer Tools :** VS Code, Eclipse, Postman, Git/ Github
- Framework/ Libraries :** JSP, Spring Boot
- Databases :** Oracle DB, MySQL

## EXPERTISE

- Hands-on experience building interactive and visually appealing web pages using **HTML, CSS, and JSP**.
- Proficient in **core and advanced Java**, including data structures, algorithms, and **Spring Boot** for developing **full-stack** web applications.
- Experienced with **RDBMS** such as Oracle Database and backend integration using **JDBC** for efficient data management.
- Skilled in designing and integrating **RESTful APIs** for secure and scalable backend.

## PROJECTS

### QUICK E-COMMERCE | PERSONAL PROJECT

[View Source Code](#)

- Built an eCommerce application to improve management of products, orders, and users.
- Integrated role-based access, Razorpay payment gateway, and automated email notifications.
- Optimized order and inventory workflows, reducing processing time by 30% and enhancing workflow efficiency.

**Tools Used:** Java, JSP, Maven, Hibernate, MySQL, Spring Boot

### INVENTORY MANAGEMENT SYSTEM | PERSONAL PROJECT

[View Source Code](#)

- Developed an eCommerce platform Inventory Management System for daily need items enhancing stock accuracy and order tracking.
- Implemented role-based REST APIs to manage user access, requests, and responses, improving system security and scalability.
- Integrated email notification services to automate vendor communication for stock updates, purchase orders, and inventory alerts.

**Tools Used:** Java, Maven, Hibernate, MySQL, Spring Boot

### PORTFOLIO SITE | PERSONAL PROJECT

[View Source Code](#)

- Designed a responsive personal portfolio website to showcase my projects and skills.

**Tools Used:** React JS, Tailwind CSS, Git/Github, Netlify

### SPICES E-COMMERCE | COLLEGE PROJECT

2024

- Built an organic spices eCommerce platform which provides services from farm to home directly using Spring Boot and Thymeleaf with MySQL, Hibernate, Spring MVC, and Razorpay payment integration.

**Tools Used:** Java, Thymeleaf, Hibernate, Spring Boot, MySQL, Github

## PROFESSIONAL CERTIFICATION

**Full Stack Java Web Development** | Naresh IT Solutions , Hyderabad

August, 2024 - Current

## EDUCATION

### Bachelor of Technology

Computer Science & Engineering | BPUT

2024

Bhubneshwar, Odisha

### Science Intermediate

Swami Vivekananda Memorial Higher Secondary School

2020

Jagatsinghpur, Odisha

### Matriculation

Naugaonhat High School

2018

Naugaon, Odisha

## EXTRACURRICULAR ACHIEVEMENTS

- Received **First Prize** in Rangoli competition, themed "Nature's Harmony"
- Secured **runner-up** in the Musical Chair competition | Xuberance 2024
- Runners up** in Drawing Competition | Xuberance 2023
