SUMMARY

A self-motivated and enthusiastic web developer with over 2 years of hands-on experience in building and maintaining web-based projects. With a solid foundation in both front-end and back-end technologies, I'm passionate about writing clean, efficient code and solving complex problems.

EXPERIENCE

Droom Technology Private Limited | Associate Software Developer

Sep 2024 – Sep 2025

On-site (Gurgoan, Haryana)

- Collaborated with cross-functional teams to develop and maintain web applications using **SpringBoot** and **Laravel**.
- Developed and integrated **RESTful APIs** to optimize communication efficiency between **front-end** and **back-end** platforms.
- Worked with **MongoDB** and **MySQL** databases for data storage and retrieval, ensuring data consistency.

Droom Technology Private Limited | Software Developer Intern

Aug 2023 – Aug 2024

- Developed modules using **Laravel Framework** including authentication, CRUD, and API creation.
- Assisted in debugging, code optimization, and writing reusable components.
- Integrated Strapi CMS with **Next.js**, utilizing **GraphQL API** and **Redux Toolkit** for improved data management, state handling, and overall application performance.

PROJECT

Droom Rental | (Java, SpringBoot ,MySQL)

Developed a Droom Vehicle Rental System using Java, Spring Boot, and MySQL, allowing users to rent luxury and vintage cars through a seamless booking experience. Implemented REST APIs, authentication, payment integration, and an admin dashboard to manage vehicles and streamline rental operations.

Automobile Transaction Manager | (PHP, Laravel)

Buying or selling a vehicle involves a lot of paperwork, but Droom's Automobile Transaction Manager simplifies the process. This service automates documentation with pre-filled, ready-to-print forms tailored for buyers, sellers, and dealers, ensuring a quick and efficient transaction.
