## PROFILE

---

Enthusiastic Java Full Stack Developer, passionate about writing clean, efficient code and eager to contribute to real-world projects and learn new technologies in a collaborative environment. Trained at Naresh IT, gaining hands-on experience in building scalable full-stack projects using Core Java, Spring Boot, MySQL, React.js etc.

## EXPERIENCE

---

### Naresh i Technologies

Full Stack Developer Trainee

Feb 2024 - Feb 2025

- Completed intensive training in **Java Full Stack Development**, focusing on designing, developing, and maintaining scalable web applications.
- Gained hands-on experience with **Core Java, Advanced Java (JDBC, Servlets, JSP)**, and **Spring Boot** for backend development.
- Worked with **MySQL** for database management and implemented **CRUD operations** using JDBC and Hibernate.
- Strengthened understanding of **Microservices architecture, MVC architecture, RESTful APIs, and Object-Oriented Programming principles**.

## EDUCATION

---

### Vilasrao Deshmukh Foundation, Group of Institutions, Latur

Bachelor of Technology (CSE) - 7.89 (CGPA)

2021 - 2024

### Puramal Lahoti Government Polytechnic, Latur

Diploma in Information Technology - 91.25

2018 - 2021

## PROJECTS

---

### E-Store

Technology Stack : React JS, SpringBoot & Microservices, MySQL, REST APIs

IDE : Eclipse IDE

- Developed a full-stack e-commerce web application providing a seamless online shopping experience.
- Implemented user authentication, product listing, shopping cart, and order management functionalities.

### Project Management System

Technology Stack : Core Java, Servlets, JSP, Oracle(SQL & PL/SQL), HTML, CSS, Bootstrap and Javascript,

IDE : Eclipse IDE

- Key features include user authentication, task management, progress tracking with visual dashboards.
- Designed and implemented database schemas, optimized queries, and ensured seamless integration of front-end and back-end components.

## SKILLS

---

**Programming Languages :** Core Java (8,17,21), Adv. Java(Servlets & JSP)

**Front-End Technologies :** HTML5, CSS, JavaScript, ReactJS

**Database :** Oracle (SQL & PL/SQL), MySQL

**Other Technologies :** SpringBoot, RESTful Web Services, Microservices, Spring Security, Hibernate, JDBC, JPA, Maven, JUnit, Git-GitHub, JMeter, Postman, Swagger, Insomnia, Docker

## CERTIFICATE

---

### Full Stack Java Developer certification - NareshIT

**Java (Basic) - HackerRank** 

**SQL (Basic) - HackerRank**
