Objective

Motivated software engineering fresher with strong fundamentals in programming and problem-solving, seeking an entry-level role to apply my skills and learn from real-world projects.

EDUCATION

- Malla Reddy Engineering College, Maisammaguda
Bachelor of Technology in Information Technology
CGPA:7.0 2021-25
 - Sri Chaitanya Junior College, Madinaguda
Intermediate
Percentage: 92 2019-21
 - Keshava Reddy School
Secondary School Certificate
CGPA: 8.8 2019

SKILLS

- Programming Languages: Java, Python
 - Databases: MySQL
 - Web Technologies: HTML, CSS

PROJECTS

- Movie Ticket Booking console Application

Developed a console-based ticket booking system using Core Java and OOP principles.

Implemented user registration, login authentication, and ticket type selection using arrays and exception handling . Used Scanner class for input and ANSI colors for improved console interface.

- ## • Human Activity Recognition Using Smartphones

Developed an ML-based model to classify user activities (walking, sitting, etc.) using smartphone accelerometer And gyroscope data.

Achieved ~94% accuracy using Random Forest and SVM classifiers in Python (Scikit-learn, NumPy, Pandas).

ACHIEVEMENTS

- Completed Java programming Internship at codsoft (2024)
 - Certified in college level hackathon and technical project presentations

KEY SKILLS

- Communication, Problem Solving, Adaptability, Teamwork, Analytical Thinking

LANGUAGES

English

Telugu

INTERESTS

- Reading Novels
 - Batminton
