## EDUCATION

### **DKTE's Textile and Engineering Institute, Ichalkaranji**

B.Tech - Computer Science and Engineering - CGPA – 7.73

**Passout - 2025**

Ichalkaranji, Maharashtra

### **Shraddha Institute Of Career Development, Ichalkaranji**

MAHARASHTRA STATE BOARD - Percentage – 90.17

**Passout - 2021**

Ichalkaranji, Maharashtra

### **Saraswati Highschool, Ichalkaranji**

MAHARASHTRA STATE BOARD - Percentage – 79.00

**Passout - 2019**

Ichalkaranji, Maharashtra

## PROJECTS

### **Bank Management System | Java, SpringBoot, Spring MVC, JPA, RESTful Web Services, MySQL, Thymeleaf.**

- Developed a full-stack banking application enabling users to register, log in, and perform core operations like create account, deposit, withdraw, and close account.
- Integrated Spring Data JPA for efficient ORM and REST APIs for communication between layers.
- The frontend was designed using Thymeleaf, enhanced with AI-assisted prompt engineering for a responsive interface.
- Implemented user authentication and session management.
- Performed CRUD operations securely via REST APIs.
- Used MySQL Workbench for Database Management and followed Spring MVC layered architecture (Controller, Service, Repository).
- Version-controlled and hosted on GitHub.

**2025**

### **ATM interface | Object-Oriented Programming, Java.**

- This project involves creating a simple ATM interface using Java.
- Users can perform basic banking functions such as withdrawing money, depositing money, checking their balance, and exiting the system.
- Through this project, the fundamental concepts of Java programming are demonstrated.

**2023**

## TECHNICAL SKILLS

- Languages:** Java, SQL.
- Technical Skills:** OOP, Data Structures, Spring Boot Framework, Spring MVC, Spring Data JPA, RESTful APIs & Web Services, MySQL, Hibernate, JDBC, Thymeleaf.
- IDE's:** VS code, Eclipse IDE, Postman, Spring Initializr, MySql Workbench, GitHub.

## CERTIFICATIONS

- Java Programming** - Successfully completed a certification in Java programming, demonstrating proficiency in object-oriented principles, data structures. Gained hands-on experience in writing efficient, scalable Java code and problem-solving.
- Spring Boot Certification** - Gained hands-on expertise in Spring Core, Spring MVC, Spring Data JPA, Hibernate, RESTful Web Services, and Spring Boot for building and securing efficient Java-based web applications, leveraging Auto-Configuration and Starter Dependencies to quickly configure and run web applications.
- Introduction to Prompt Engineering** - The Introduction to Prompt Engineering certification provides foundational knowledge and practical skills for effectively interacting with AI language models. It covers key techniques for crafting precise and structured prompts to optimize AI responses.
- Introduction to SQL** - Learned core SQL concepts including MySQL, queries, joins, subqueries, triggers, and integration with Python; gained practical skills for database handling and SQL development.

## PERSONAL INTERESTS / HOBBIES

- Playing games, Swimming, Traveling, Watching web series & movies.
