Summary

Full-stack web developer with hands-on experience building scalable, responsive, and user-friendly web applications. Skilled in front-end and back-end technologies including React.js, Node.js, Express.js, Spring Boot, Hibernate, and SQL. Strong understanding of API integration, data handling, and collaborative software development practices.

Skills

Languages: C/C++, Java, JavaScript, SQL

Frameworks: Spring Boot, Hibernate, React.js, Node.js, Express.js, Bootstrap, Material UI

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Eclipse, IntelliJ IDEA

Experience

NexaNova ProTech

Jan 2025 – May 2025 | Pune

Software Development Intern

- Developed and maintained web applications, ensuring responsive design and high performance.
- Collaborated with cross-functional teams to design, test, and deploy new features in an Agile environment.
- Integrated **RESTful APIs** and optimized **SQL** queries for improved backend efficiency.
- Strengthened problem-solving and teamwork skills while contributing to production-level improvements.

Projects

SkyMate – Real-Time Weather Forecasting App | React.js, Vite, HTML, CSS, JavaScript, Weather API

Jan 2025

- Developed a responsive weather forecast application with real-time API integration.
- Displayed temperature, humidity, wind speed, and forecast trends using component-based **React** architecture.
- Implemented state management, error handling, and optimized rendering for smooth user experience.
- Ensured cross-browser compatibility and intuitive design for enhanced usability.

ShopEase – E-Commerce Web Application | Java, JSP, Servlets, MySQL, HTML, CSS, JavaScript

Apr 2025

- Built a full-featured e-commerce platform supporting product catalog, shopping cart, and secure checkout.
- Implemented user authentication, session management, and order processing.
- Created dynamic database-driven pages and managed product and order data efficiently.
- Applied MVC architecture principles for modular, maintainable, and scalable code.

Student Management System – CRUD Web Application | Spring Boot, Hibernate, MySQL, Thymeleaf

Nov 2025

- Developed a full-stack web application to manage student records using Spring Boot and MVC architecture.
- Implemented CRUD operations with Hibernate/JPA for seamless interaction with the MySQL database.
- Built dynamic and responsive UI pages using Thymeleaf for adding, editing, viewing, and deleting students.
- Applied layered architecture (Controller–Service–Repository) to ensure clean structure and maintainability.
- Implemented form handling, input validation, and smooth data flow between frontend and backend.

Education

SVPM's College of Engineering, Baramati

May 2025

Bachelor of Engineering in Computer Engineering

GPA: 7.85 / 10

Certifications

Java Programming – NPTEL (Jan 2024)

C++ Programming – SPPU (Dec 2022)
