## EDUCATION

**B.E. in Computer Science Engineering**  
SVPM's College of Engineering, Pune, India  
CGPA: 8.36

Aug 2021 - Apr 2025

**HSC**  
Vidya Pratishthan's College of ASC Baramati, Pune  
Percentage: 88.17

June 2020 – June 2021

## SKILLS

### Technical Skills:

- Programming Languages:** Core Java, Java 8, SQL, HTML, CSS
- Frameworks and Web Technologies:** React.js, Spring Boot, Hibernate
- Tools:** Git, GitHub, Postman API testing
- Computer Core:** OOPs, DBMS, STQA.
- Databases:** MySQL, JDBC

**Soft Skills:** Leadership, Communication, Problem Solving, Teamwork

## INTERNSHIP

**Web Development Intern** | Sahyadri Softwares Pvt.Ltd

Dec 2023 – Mar 2024

- Developed a user-friendly web application for online food ordering and restaurant management using React and Tailwind.
- Implemented a responsive and interactive UI for customers to browse menus, place orders, and track their orders in real-time.
- Gained hands-on experience in component-based architecture, state management, and dynamic rendering in React.js.

## PROJECTS

**Car Rental Management System** | RESTful APIs, Spring Boot, Spring Security, Spring Data JPA, User Auth

- Developed RESTful APIs using Spring Boot to handle user requests, car booking operations, and payment processing.
- Implemented Spring Security for authenticating users with their username and password.
- Utilized Spring Data JPA for seamless interaction with the database and efficient handling of entities like users, cars, bookings, and variants.
- Created an admin dashboard to monitor bookings, manage cars, and generate reports with data representation.

### Mynta Clone

- Built Mynta Clone using React.js with product listing, filter & search.
- Designed responsive UI with reusable components & smooth navigation.
- Improved performance using React hooks & optimized rendering.

## CERTIFICATIONS

- Core Java - Core2Web
- The Complete Web Development Bootcamp – Udemy
- SQL - NPTEL
