## ABOUT ME

Motivated Computer Science Engineering graduate with hands-on experience in Python, Java, MySQL, and Django. Recently completed a full-stack internship with real-world exposure to backend development and deployment. Passionate about building scalable tech solutions and eager to grow in software development.

## SKILLS

- Java
- Python with Django
- HTML, CSS
- DBMS (MySQL)
- Power BI (Beginner)
- Google Cloud Platform (Beginner)

## PROJECTS

### WhatsApp Chat Analyzer

- Technologies Used (Python, Matplotlib, Pandas, Seaborn, RE, Streamlit)
- Developed a Python tool that processes chat logs to generate statistics and visualizations. It features word frequency, timeline, activity trends, and user metrics using Pandas, Matplotlib, and Streamlit, providing valuable insights from chat data for personal use and research.

### HR Dashboard

- Technologies Used (Power BI, Excel)
- Created an HR dashboard in Power BI to track employee metrics like headcount, attrition, diversity, and performance. Data visualization was used to help HR teams monitor trends and identify areas for improvement, supporting informed talent management decisions.
