## 💼 Internship Experience

- Salesforce Developer Trainee  
*Mastek Trichy* April 2025 - October 2025  
Developed and customized Salesforce applications by building Objects, Flows, and Lightning Pages, implementing complex business logic using Apex classes and triggers, and creating Lightning Web Components (LWC) to enhance user experience.

## ⭐ Certificate

- Java Full Stack course at Pentagon Space, Bengaluru
- Java Developer course under Naan Mudhalvan
- Salesforce Admin & Developer (with LWC) certification on Udemy
- Python and Django course with project work on Udemy

## 📖 Project

- Facial Emotion Recognition System for Visually Impaired People  
Built a Facial Emotion Recognition system designed to assist visually impaired individuals by detecting human emotions from images in real time. Utilized deep learning for emotion classification and integrated voice feedback to help users understand others' expressions.
- Heart Disease prediction using Machine Learning  
Developed a Heart Disease Prediction model using Machine Learning by analyzing key health parameters, performing data preprocessing, and training classification algorithms to accurately predict the risk of heart disease.
