EBRAHIM AHMED

Software Tester

📞 +201552900522 | ✉ Ebrahim.abofadda@gmail.com | 🔗 LinkedIn | 📍 Giza

Detail-oriented Quality Control Engineer with hands-on experience in manual testing, Jira test case management, and basic API automation. Skilled in identifying and reporting defects, collaborating with developers, and supporting Agile teams. Eager to grow and contribute to delivering high-quality software solutions.

EDUCATION

Zagazig University | Sep,2019 - Jul,2023
Bachelors of Computer Science
GPA : 3.05 | Graduation Project Grade : A

EXPERIENCE

INTERNSHIP
Semi Corner

Apr, 2025 - Sep, 2025

- Developed and executed manual test cases based on functional requirements.
- Reported and tracked bugs using JIRA and Trello.
- Performed functional, UI, and regression testing on web and mobile applications.
- Worked closely with developers to validate bug fixes and improve software quality.
- Used Postman for basic API testing and verification.
- Gained exposure to Selenium and supported the QA team in maintaining automation scripts.
- Documented test results and contributed to weekly QA reports.
- Participated in Agile/Scrum meetings and followed software testing best practices.

PROJECTS

Etoile

- Performed **manual** testing of **Etoile** Pâtisserie's online ordering platform, validating product selection, cart, checkout, and payment workflows.
- Logged and tracked issues in Jira, collaborating with developers to resolve defects and ensure a smooth customer ordering experience.

Etmana

- Conducted **manual** testing for **Etmana** e-commerce website and mobile application, covering product search, cart, checkout, and payment flows.
- Created and executed detailed test cases, logging defects in Jira to support developers in delivering a stable release.

Bazooka

- Performed **manual** testing of the **Bazooka** Food mobile app, validating food ordering, cart management, checkout, and payment workflows.
- Reported and tracked issues in Jira, ensuring smooth end-to-end user experience for the food delivery process.

Elagi

- Automated **API** testing for **Elagi.com** using Postman and validated endpoints via Swagger documentation.
- Ensured API reliability by testing auth, products, orders, and user workflows.

SKILLS

- Automation Testing using (Selenium, TestNG , Cucumber)
- API Testing using (Postman, Swagger).
- AI prompt testing.
- Familiar with Software Development Lifecycle (SDLC) and (STLC).
- Software Testing tools (JIRA, Trello, Excel).
- Agile Software Methodologies (Scrum).
- Good Knowledge at HTML - CSS.
- SQL queries and Programming using JAVA (OOP).
- Agile Software Methodologies (Scrum).
