Yash Singare

Full Stack Developer

9075251460 ◇ yashsingare99@gmail.com ◇ Bengaluru, India ◇ Linkdein ◇ GitHub

SUMMARY

Technically strong Full Stack Developer with deep knowledge of Core Java, Advanced Java, Spring Boot, Hibernate/JPA, and RESTful API development. Trained at JSpiders, Bangalore, with hands-on experience in building responsive web interfaces using HTML, CSS, JavaScript, and integrating them with robust backend services. Skilled in Linux, AWS, Git, GitHub, and Shell Scripting, with a focus on cloud deployment, CI/CD practices, and backend performance optimization. Seeking a development role where I can engineer scalable, secure, and high-performance applications while continuously adopting modern frameworks and cloud-based architectures.

EDUCATION

MCA, Jawaharlal Nehru Engineering College, Mgm university

May '23 — Aug '25
Aurangabad

CERTIFICATIONS

Full Stack Java Developer, Jspider Institute Banglore   Sep '25

PROJECTS

1. Event Management System (Spring Boot, Hibernate, Postman)
- Designed and developed RESTful APIs to manage events, venues, organizers, and attendee registrations
- Integrated Hibernate ORM for efficient and seamless database communication
- Implemented input validation and robust exception handling for reliability
- Tested API endpoints thoroughly using Postman.
- Implemented pagination for API responses to improve performance and scalability

2. Evara Collection Website (HTML, CSS, JavaScript)
- Showcased front-end development skills by creating a visually appealing "Evara Collection" website for showcasing shoes and dresses.
- Implemented DOM manipulation and event handling to enhance user interactivity
- Built key features such as product listing, search functionality, and shopping cart management using DOM manipulation.
- Ensured cross-browser compatibility and a smooth user experience across various devices

SKILLS & INTERESTS

Programming Languages: Core Java, Java 8, OOPs, Collections Framework, Multithreading, Exception Handling
Backend & Microservices   Spring Boot, Spring MVC, Microservices Architecture, RESTful APIs, Spring Cloud, Eureka Server/Client, API Gateway, Load Balancing, Feign Client
Web Technologies: HTML, CSS, JavaScript (DOM, BOM, Events, Responsive Design)
Database: MySQL, PostgreSQL, MongoDB, SQL
Cloud & DevOps: AWS (EC2, EBS, AMI, IAM, S3, RDS), Linux (CLI, File System, Permissions), Jenkins, CI/CD
Version Control & Collaboration: Git, GitHub (Branching, Pull Requests, Code Review), Github Copilot
Developer Tools: IntelliJ IDEA, Eclipse, Postman, Apache Maven
Soft Skills: Problem-Solving, Team Collaboration, Analytical Thinking, Adaptability, Communication

LEADERSHIP & RESPONSIBILITES

Inter-School Basketball Team Captain   Aug '18
Led the school team in multiple inter-school tournaments, demonstrating leadership, teamwork, and strategic skills. Organized and coordinated practice sessions, fostering team cohesion and enhancing overall performance. Represented the school with consistent sportsmanship and dedication, earning recognition and accolades in various competitive events.

Cultural Fest Organizer   Dec '01
As a Cultural Fest Organizer, I played a key role in planning and executing various events during the college fest. From coordinating with teams and managing schedules to ensuring smooth event flow, I contributed to creating a vibrant and engaging experience for participants and audiences. This role enhanced my leadership, time management, and teamwork skills
