PROJECTS

SECURE MESSAGING SYSTEM USING END TO END ENCRYPTION

A successful **Secure Messaging System using End-to-End Encryption (E2EE)** ensures that messages are private, secure, and accessible only to the sender and intended recipient. The key outcomes include:

- **Privacy**: Messages are protected from unauthorized access, including by the service provider.
- **Security**: Strong encryption prevents data breaches or eavesdropping.

- **Trust**: Users feel confident their conversations are confidential.
- **Reliability**: The system delivers messages securely and without disruption.
- **Ease of Use**: The platform is user-friendly while maintaining high security.

CERTIFICATION

- A "**Java**" Completion Certificate from **"Great Learning"** signifies that the recipient has successfully completed a comprehensive course or program focused on Java programming.
- A "**C**" Programming Completion Certificate from **"Career Ninja"** signifies that the recipient has successfully completed a comprehensive course focused on the C programming language.

DECLARATION:

- I here by declare that all the above mentioned information is true to the best of my Knowledge and belief.
