ABDULRAHMAN ALDINI

SUMMARY

A passionate and self-driven Full Stack Java Developer with strong expertise in building scalable and efficient web applications using Java, Spring Boot, React.js, and related technologies. Known for rapid learning, problem-solving abilities, and the ability to work independently or as part of a team. Seeking a dynamic role in a forward-thinking organization to contribute technical solutions and drive impactful software products.

PROFILE

- I am Abdulrahman self-taught developer passionate about upgrading features and learning new technologies. Known for problem-solving and continuously improving to deliver innovative solutions.

CONTACT

- Name : Abdulrahman Aldini

- Email : aldayaniabdulrahman50@gmail.com

- Phone No : +91 8328568271

ADDITIONAL INFORMATION

- **Technical Skills:** Languages & Frameworks: Java, JavaScript, Python, Spring Boot, Hibernate, HTML, CSS, React.js, AngularJS, Node.js

  Databases: MySQL, MongoDB

  Tools & DevOps: GitHub, Docker, Kubernetes, AWS, RabbitMQ, Kafka

  CMS & SEO: WordPress, SEO Optimization

  Others: REST APIs, Microservices Architecture, JWT Security

WORK EXPERIENCE

Software Development   Labyrinth Global Solutions   Jan 2024 - Dec 2024

- Bug Fixes: Address straightforward issues in the code, enhancing your understanding of the codebase and the application's structure.
- Code Refactoring: Improve code readability and efficiency by refactoring smaller sections, familiarizing yourself with best coding practices.
- Unit and Integration Testing: Develop tests for service classes or REST controllers using Spring Boot's testing frameworks to ensure code quality.
- Implementing New Endpoints: Add or improve RESTful endpoints, learning about API development and the project's design guidelines.

POS Application   Labyrinth Global Solutions

- A React frontend interfaces seamlessly with a Spring Boot backend, enabling smooth product management and sales transaction processing. React components efficiently render product listings, shopping carts, and checkout processes. Meanwhile, Spring Boot's REST API endpoints handle data retrieval, sales transactions, and user authentication, ensuring a cohesive and secure Point of Sale experience.

CRM Application   Labyrinth Global Solutions

- A React frontend interfaces seamlessly with a Spring Boot backend, enabling smooth customer management and transaction processing. React components efficiently render customer lists, interaction history, and sales pipelines. Meanwhile, Spring Boot's REST API endpoints handle data retrieval, lead management, customer interactions, and user authentication, ensuring a cohesive and secure CRM experience. This integration provides real-time customer insights and enables efficient communication across the sales and support teams.

Hospital Api   Usa private company   Jan 2025 - Feb 2025

- Develop RESTfulAPIs for USS Hospital to manage patients, appointments, doctors, and billing. Includes CRUD operations, appointment booking, invoice generation, and secure authentication using Spring Boot, MySQL, and JWT, improving hospital management efficiency.

JavaAndPython fullstack trainer Part -time   Precise Simulation   JAN 2025 - May 2025

- Led a two-month intensive Java training program, teaching both core and advanced topics to students. Designed and delivered comprehensive lessons on OOP, multithreading, collections, exception handling, and more. Created hands-on projects to reinforce learning, including a POS application. Utilized interactive teaching methods and provided personalized support to ensure student success. Developed course materials and assessments to track and enhance student progress.

WORK EXPERIENCE

Freelance Full Stack Trainer

June 2025 - Aug 2025

- Providing training in Full Stack Development including Java Full Stack, Python Full Stack, MySQL, HTML, CSS, JavaScript, React, and Spring Boot to students on a private contract basis. Designing customized training modules, delivering practical sessions with real-world projects, and mentoring learners to strengthen both programming foundations and advanced development skills.

ADDITIONAL INFORMATION

Freelance Website Projects

- Successfully developed and deployed over 4 responsive websites for small businesses and local startups. These included:

  WordPress-based service websites
  All integrated with mobile responsiveness, SEO best practices, and admin dashboards.
