- Software Development Lifecycle
- Project Planning & Management
- Requirement Gathering & Analysis
- Technical/ Functional Documentation
- Technical/Solution Consultation & Architecture
- Service Delivery Excellence
- Unit Testing/Integration
- Troubleshooting & Debugging
- Cross-Functional Coordination
- Risk Mitigation & Control
- Client & Stakeholder Relationship Management
- Training & Development

EDUCATION

- 2017: Bachelors of Engineering from Mauli college of Engineering and Technology, Shegaon

SUMMARY

- **3.2 years** experienced **Java Developer**, highly skilled in **Core Java**, **Advanced Java** with, **Spring Boot**, **Hibernate**, **MySQL**, **OOPS** concepts, **Collection framework, Apache Tomcat Server** and version control tool like **Git**, **Jenkins** and **Mule4**.
- Highly skilled in taking independent ownership of software components and delivering releases on time.
- Proficient in interacting with end clients to understand workflow & business model and brainstorm creative and efficient technical solutions.
- Currently working as a Java Developer at Xcaliber Infotech, collaborating with a diverse team to **design**, **develop**, and **maintain software programs** using Java and related technologies.
- Demonstrating key skills and competencies in **Microservices**, **Advanced Java** with **JDBC**, **Hibernate** and **Spring**, as well as proficiency in **Spring IOC** and **Spring MVC**, and hands-on experience in writing database queries in **MySQL** and developing web applications using **Spring Boot.**
- Exhibiting strong leadership and soft skills, including analytical problem-solving, proficiency in identifying and fixing bugs, **designing custom exceptions,** and tested APIs using **Postman** and **Anypoint console.**

PROFESSIONAL EXPERIENCE

Aug 2023 to Sep 2025 | Java Developer | Xcaliber Infotech Pvt. Ltd., Pune

➢ **Loan Origination System (LOS) project**

- Developed and maintained modules for a Loan Origination System using Java, Spring Boot, and MySQL.
- Built RESTful APIs to manage customer onboarding, loan application processing, and approval workflows.
- Implemented business logic for eligibility checks, credit scoring, and document and KYC details processes.
- Optimized database design and queries for better performance and data integrity.
- Worked on Global Exception Handling.
- Collaborated with cross-functional teams in an Agile environment, participating in sprint planning and daily stand-ups.

➢ **Cashflow Management System and Spend Intel Project**

- Designed and developed API integrations using MuleSoft, Anypoint Studio, and RAML specifications.
- Built and deployed Mule applications to integrate internal systems with external financial platforms.
- Developed flows for processing real-time cashflow data, handling transactions, and generating financial reports.
- Ensured seamless data transformation and routing using DataWave and Mule connectors.

IT SKILLS

- Languages: **Java**
- Core Java: **HashMap, Collection Framework, String Class, Exception Handling**
- Web Technologies: **HTML, CSS, jsp**
- Databases: **MySQL**
- Frameworks: **Hibernate, Spring Boot, Spring, Microservices**.
- Version Control Tool: **GIT**
- Agile Tools: **JIRA and YouTrack**
- Servers: **Apache Tomcat 9.x, Kafka,**
- IDE's: **Eclipse, STS, Anypoint Studio**
- Microsoft Office: **Excel, PowerPoint Presentation, Word**

SOFT SKILLS

- Collaborator
- Team Leader
- Communicator
- Team Oriented

PERSONAL DETAILS

Date of birth: 16th May 1994
Languages: English, Hindi and Marathi
Address: Pune - 411057

- Published and managed APIs via Anypoint Platform, enforcing policies and monitoring usage.
- Collaborated with business analysts to translate integration requirements into scalable Mule flows.
- Performed end-to-end testing and troubleshooting in on-premise and cloud-based environments.

Feb 2023 to Aug 2023 | Java Developer | Skill Cube Pvt Ltd
Key Result Areas:

- Enhanced and maintained core modules of an enterprise-level E-commerce application using Java, Spring Boot, and RESTful APIs.
- Designed and implemented scalable backend services for order processing, inventory management, and user account handling.
- Optimized database queries and improved performance by implementing caching and indexing in MySQL.
- Integrated third-party APIs for payment gateways, shipping services, and SMS/email notifications.
- Led debugging and issue resolution for production bugs, ensuring minimal downtime and fast turnaround.
- Collaborated closely with frontend developers and QA team in an Agile/Scrum environment to meet tight release schedules.
- Applied secure coding practices and participated in code reviews to ensure maintainability and scalability.
- Contributed to deployment automation and CI/CD pipelines using tools like Jenkins and GitLab CI.

Aug 2022 to Jan 2023 | Java Developer | Sela Technology, Pune
Key Result Areas:

- Developed key features for an e-commerce web application using Java, Spring Boot, and REST APIs.
- Integrated product listing, user authentication, and shopping cart functionalities.
- Collaborated with a cross-functional team in an Agile environment to deliver sprint goals.
- Implemented backend services to handle order management and payment processing workflows.
- Used MySQL for data persistence and performed CRUD operations.
- Employed Git for version control.
- Gained experience in deploying the application on local servers and handling API integration.
