EDUCATION

Sant Mukatabai Arts and Commerce College, Muktainagar Jalgaon, Maharashtra
Bachelor of Computer Application (CGPA 9.0/10) *July 2019 – June 2022*

PROFESSIONAL EXPERIENCE

Wipro Limited Jan 2024 – Nov 2025
Senior Associate – Trust & Safety / Content Moderator (Client: Google)
- Reviewed, evaluated, and moderated large volumes of user-generated content in accordance with Google's Trust & Safety policies and community guidelines.
- Handled sensitive and high-risk content while maintaining strict accuracy, consistency, and compliance standards.
- Achieved and sustained 95%+ quality and productivity scores in a fast-paced, deadline-driven environment.
- Worked closely with QA, policy, and cross-functional teams within an Agile workflow to ensure platform integrity.
- Parallelly enhanced backend development skills by working on Java, Spring Boot, REST APIs, Hibernate, and PostgreSQL through internship projects and self-learning.

INTERNSHIP

Amit IT, Pune May 2025 – Nov 2025
Remote / Part-Time Backend Developer Intern
- Developed backend services for a Training Institute Management System using Spring Boot and PostgreSQL.
- Implemented RESTful APIs for student enrollment, batch management, and recorded session access.
- Designed role-based access control for Admin and Student modules using Spring Security and JWT authentication.
- Integrated Redis caching to improve API performance and reduce database load.
- Collaborated in Agile sprints, used Git and GitHub for version control, and created a basic Jenkins pipeline for deployment automation.

PROJECTS

Training Institute Management System
Backend Development using Spring Boot & PostgreSQL
- Designed and built a backend system to digitalize training institute operations with Admin and Student modules.
- Implemented JWT-based authentication and authorization to secure application endpoints.
- Applied Redis caching to optimize frequently accessed data and enhance overall application performance.
- Integrated backend APIs with a React frontend and documented services using Swagger UI.
- Applied SOLID principles and basic GoF design patterns including Singleton, Factory, and Template Method.

TECHNICAL SKILLS

- **Programming:** Core Java (Java 8+), OOPs, Collections, Multithreading, Exception Handling, JDBC.
- **Frameworks:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate.
- **Security:** JWT Authentication, Role-Based Access Control.
- **Database:** PostgreSQL.
- **Frontend:** HTML, CSS, JavaScript (basic React integration).
- **Testing:** JUnit, Mockito.
- **Caching:** Redis.
- **Version Control:** Git, GitHub, TortoiseGit.
- **API Tools:** Postman, Swagger UI.
- **DevOps:** Basic knowledge of Jenkins and Spring Profiles.
- **IDE/Tools:** IntelliJ IDEA, Eclipse, STS, VS Code.
- **Design Patterns:** Singleton, Factory.

CERTIFICATIONS

Full Stack Java Developer – Naresh i Technologies, Hyderabad July 2022 – Jan 2023
