Thati.Nithin

Junior UI/UX Designer

Junior UI/UX Engineer focused on designing mobile apps and responsive landing pages with clean visual structure, intuitive user journeys, and scalable UI components.

Experience

Temple Tree Technologies
Jr. UI/UX Engineer
June 2024 - Present

- Contributed to the design of 3 mobile apps by creating user flows, wireframes, and UI screens in collaboration with senior designers and product teams.
- Independently designed 6 responsive landing pages, focusing on layout structure, visual hierarchy, interaction design, and mobile responsiveness.
- Built and maintained UI components using auto-layout, variants, and the design system in Figma.
- Coordinated closely with developers to ensure smooth design-to-development handoff with proper annotations and assets.
- Improved design clarity and usability through internal reviews, iterations, and feedback cycles.

Education

Sreenidhi Institutes Of Science And Technology
B.tech in Mechanical Engineering, Aug 2019- July 2023

Certification

UI/UX Design Certification (In Progress)
Student Tribe — Oct 2025 – Jan 2026
