LinkedIn | GitHub | LeetCode | GeeksForGeeks

SKILLS

Programming Languages: C, C++, Java, Python

Web Development: HTML, CSS, JavaScript, Bootstrap

Frameworks: Spring Boot

Database: MySQL

Cloud Platform: Amazon Web Services (AWS)

Tools and Platforms: Version Control System (Git), Linux

Concepts: Agile, Scrum, SDLC, OOP

Data Structures & Algorithms

EDUCATION

- M.Sc. Computer Science | G.H. Raisoni College, Pune *(10/2021 - 08/2023)* | CGPA: 7.95
- B.Sc. Computer Science | C.S. Mahavidyalaya, Shrigonda *(07/2017 - 11/2020)* | Percentage: 69.89%

ACADEMIC PROJECTS

- **eVoting - College Election System**
    - Developed an online portal to streamline college elections, enabling voter and candidate registration, secure online voting, and accurate vote counting.
    - Implemented automated email notifications in the eVoting for the college election system, resulting in a 60% reduction in missed voting opportunities, ensuring higher voter turnout.
    - Technologies Used - HTML, CSS, JavaScript, Bootstrap, MySQL.
- **Oscorp - Electricity Billing System**
    - Created a platform enabling individuals and businesses to receive and pay electricity bills online, with charges based on government standards.
    - Led the transition to a paper-free environment in the Oscorp Billing System, achieving a 100% reduction in paper consumption to set a new standard for sustainability in our industry.
    - Technologies Used - Java SE, Java AWT, MySQL.

EXPERIENCE

- **Intern | PHN Technology Pvt. Ltd.** *(04/2023 - 06/2023)*
    - Implemented software solutions in C and Java to address assigned technical challenges, showcasing problem-solving skills.
    - Technologies Used - C, Java.

ACHIEVEMENTS

- Solved 150+ problems on LeetCode and 150+ problems on GeeksForGeeks (Data Structures and Algorithms)
- 5-Star Coder on HackerRank (Data Structures and Algorithms)
