SUMMARY

- Detail-oriented hands-on Salesforce QA experience. Skilled in manual testing, functional testing, executing test cases. Strong in identifying defects, documenting bug reports clearly, and collaborating with developers for quick resolution. Quick learner with good analytical and problem-solving skills, focused on delivering high-quality, error-free releases.

WORK EXPERIENCE

Quality Assurance Intern | Cloud peritus pvt.Ltd., Hyderabad　　　**July 2025- October 2025**

- Completed 4 months of intensive training in Salesforce QA, focusing on manual testing, functional testing, test case design, and bug reporting. Gained hands-on experience testing Salesforce Lightning components, validating business processes, verifying page layouts, profiles, permission sets, validation rules, and flows. Performed defect identification, documentation, and retesting while working in an Agile-based environment.
- Collaborated with Admins, QA, and stakeholders to understand requirements and deliver solutions.

PROJECTS

Car Rental Booking System - QA Testing　　　**October-2025**

- Tested the end-to-end car rental booking flow including login, car search, availability, booking, payment, and invoice. Created and executed test cases for functional, UI, and regression testing. Logged defects with clear steps, screenshots, severity, and tracked them through the bug lifecycle (New → Assigned → In Progress → Fixed → Retest → Closed). Verified fixes, performed regression testing, and ensured smooth booking functionality.
