SUMMARY:

        Data Analyst with 4+ years of hands-on experience in data analytics and engineering. Began career in Power BI as a Developer, where I worked extensively on Power BI, SQL and ETL to deliver insights for business teams. Skilled in designing and developing interactive Power BI dashboards, writing efficient SQL queries for Data retrieval and Data Manipulation. Experienced in ETL for building and managing Automation workflows, creating integration recipes, and REST Api Endpoints to deliver secure, scalable data solutions.

PROFESSIONAL EXPERIENCE :

Data Analyst ,Infosys ltd.

2021-Present

- Created Visual reports and interactive Dashboards using Power BI, providing target System with actionable insights.

- Developed and maintained SQL databases, writing SQL queries for Data retrieval, analysis, and Data Manipulation for reporting purposes

- Collaborated with Cross functional teams to define KPIs and transformed them into visualizations using Power BI.

- Optimized data models using DAX and Power Query to enhance report performance.

- Implemented advanced DAX formulas, Measures along with query folding techniques to optimize data processing and minimize the load.

- Conducted rigorous testing for Power Bi reports and Dashboards to ensure accuracy, consistency and reliability.

- Analysing and resolving data refresh failures and visualization issues, maintaining high availability of BI assets.

- Implemented row-level security (RLS) and managed workspace permissions to ensure secure and role-based access to Power BI assets.

- Used Excel to collect, organize, and validate data, ensuring accuracy and clarity for reporting and business insights.

- Designed ETL automation workflows to integrate applications and built end-to-end recipes for data synchronization across multiple platforms.

- Created and managed REST API endpoints to enable seamless data exchange between systems.

PERSONAL PROJECTS:

Gesture Based Digital Art:

Developed gesture recognition system using Computer Vision to identify human gestures. Technologies: Python

Easy Kart:

Developed an Ecommerce Website for online shopping for clothing, electronic devices etc. Technologies-React

CERTIFICATIONS :

- Microsoft Certified: Power Bi Data Analyst
- Microsoft Certified: Data Fundamentals
- Workato Automation Pro 1
- Workato Automation Pro 2
- Workato Automation Pro 3
- CLA: Programming Essentials in C Language-Certified by CSICO

SKILLS :

- Microsoft Power Bi
- Microsoft SQL Server
- DAX
- Dashboard Design
- Data Analytics
- Data Visualization
- Workato
- Jira/Confluence
- Python
- ETL / Data Pipelines
- Data Modelling

EDUCATION BACKGROUND :

Bachelor of Technology:

JNTUH
Computer Science and Engineering
7.5 /10 CGPA   2017-2021
