## PROJECTS

**Portfolio Website** — Developed a responsive personal portfolio website using HTML, CSS, and JavaScript. Designed interactive UI components and optimized performance for desktop and mobile devices.
**Car Rental System** — Built a Java-based console application applying OOP principles such as Encapsulation and Polymorphism. Implemented modules for car booking, user management, and rental fee calculation, ensuring modular and reusable code.
**Hospital Management System** — Developed a Hospital Management System with modules for patient records, doctor scheduling, and billing. Implemented CRUD operations using Java, MySQL, and a user-friendly interface for smooth workflow.

## EXPERIENCE

Full Stack Developer Intern
KodNest, Bangalore | May 2025 – December 2025 (6 Months)

- Worked on real-time projects using Java, Spring Boot, REST APIs, MySQL, HTML, CSS, and JavaScript.

- Gained hands-on experience in end-to-end application development, including backend integration, frontend design, and project deployment.

Self-Employed Full Stack Developer
Freelance, Bangalore |

- Developed custom web applications for clients using Java, Spring Boot, React, and MySQL, focusing on REST API integration and responsive UI design.

- Managed end-to-end project lifecycles, including requirement gathering, coding, testing, and deployment, delivering scalable solutions for small businesses.

## CERTIFICATIONS & TRAINING

- Full Stack Java Developer Course — KodNest, Bangalore

- Python & Web Development Workshop — SRTM University

- Digital Marketing Internship — MTech Systems, Pune

## INTERESTS

Java Development | Backend Engineering | Full Stack Development | API Design | Software Architecture
