---

## PROJECT

**AI Voice Assistant -.**Built a voice-enabled conversational AI assistant using MERN stack integrated with Gemini API, featuring real-time speech recognition, natural language processing, and text-to-speech capabilities for interactive user engagement

**Text-to-Image Generator -** Developed a web application using MERN stack that converts text prompts into AI-generated images, featuring an intuitive interface for seamless image generation and real-time visualization.

**E-Commerce Website** - Built a full-featured online shopping platform using MERN stack with product catalog, shopping cart, user authentication, and order management system for seamless customer experience.

**Personal Portfolio Website** - Created a responsive portfolio website using React and Tailwind CSS with an integrated contact form that automatically sends form submissions directly to WhatsApp for instant communication

---

## EDUCATION & WORK EXPERIENCE

**BSc in Information Technology** | Mumbai University, Mumbai | 2022 – 2025 CGPA: 8.7

**FullStack Web Development Intern** | Nexcore Alliance
- Gained practical experience in MERN stack development.
- Worked on real-world projects under industry guidance.

---

**CERTIFICATIONS** : IOT – Kaizen FutureTech
