Rebati Panda

Software Tester

Contact: +91-7077328730

E-mail: rebati.p2001@gmail.com

Address: Madhapur, Hyderabad

DOB: 18 February 2000

Education

- ✓ MBA | United School of Business Management, Bhubaneswar (2022–2024) | 7.4 SGPA

- ✓ Bachelor of Science (Physics) | Maharshi Gurukul +3 Science College (2017–2020) | 7.8 CGPA

- ✓ +2 Science | Gunupur junior College, Gunupur (2015-2017) | 50.66%.

- ✓ MATRICULATION | SLNM HIGH SCHOOL, GUNUPUR (2015) | 62%

Project Experience:

Role: Automation Tester

Description: Automated testing for an e-commerce platform using Selenium WebDriver (Java), implementing POM and Data-Driven Framework. Integrated tests with TestNG and Jenkins & Cucumber, ensuring functional, regression, and cross-browser reliability.

Role: Manual Tester

Description: Web-based project for a banking system with personal, corporate, and international banking services. Conducted extensive testing for functional accuracy, UI design, and system reliability.

Certification:

Testing Tools (Manual and Automation testing) - 2024

Summary

MBA graduate with expertise in Manual, Software Testing (Selenium with Java) specializing in quality assurance and test automation. Known for aligning technical testing strategies with business goals to ensure high-quality software outcomes. Strong analytical skills and business insight to effectively enhance software processes and support team objectives.

Technical Skills

Manual Testing:

- ✓ Proficient in **SDLC, STLC, Agile** and **Scrum methodologies**
- ✓ Good knowledge of **WBT** and **BBT** Techniques
- ✓ Skilled in **functional**, **regression**, and **exploratory testing**
- ✓ Expertise in defective lifecycle management using **JIRA**
- ✓ Expertise in writing Test Cases, **Reviewing** and **Executing** the Test Cases

Automation Testing:

- ✓ Possess extensive knowledge of **Selenium automation tools,** including **Selenium IDE** and **WebDriver**
- ✓ Skilled in Core Java Programming and **OOPs Concept** with **Java Script Executor** and **Exception Handling**
- ✓ Proficient in Access Modifiers, **Constructors, Frames Handling, Windows Handling, XPATH** and **Advanced XPATH**
- ✓ Good knowledge of **Actions, Alerts** and **Robot** class along with Encapsulation and Interfaces
- ✓ Demonstrate Proficiency on **Web Elements, Locators, Collections, Polymorphism, Inheritance**, Exception and error handling

Framework (Data driven framework):

- ✓ Familiar with Folder Structure and **Reading Data** from **Property Files**
- ✓ Possess extensive knowledge on Priority & Group Testing in **TestNG, Cucumber, Selenium Grid** and **Jenkins**
- ✓ Basic knowledge of **Page Object Models (POM)**
- ✓ Familiar with **API** Testing using **Postman**
- ✓ Version Control : **Git, GitHub**
- ✓ Git Commands : git clone,git init,git add,git commit,git push,git pull.
