Frontend Developer building scalable, responsive web apps using React.js, Redux, and modern state management. Skilled in performance optimization, API integration, SDLC, and troubleshooting. Familiar with automation, CI/CD, and eager to apply best practices for distributed systems and customer-focused solutions.

Experience

Fyn Tune Solutions Limited, Navi Mumbai   **Nov 2024 – Present**

Frontend Developer

- Designed and optimized large-scale insurance product UIs, improving page load speed and responsiveness by 30%.
- Delivered scalable component architecture for reusability and maintainability in line with best practices.
- Tech Stacks – ReactJS, JavaScript.

TechPaathshala Limited, Mumbai   **Nov 2024 – Feb 2025**

Software Developer/Project Manager, Mumbai

- Developed web portal for Admin and Users supporting dynamic routing, secure authentication, and efficient state management with Redux-Saga and RTK Query.
- Ensured system scalability and operational excellence through clean architecture and modular components.
- Tech Stacks – ReactJS, RTK Query, Redux, API integration,

Eclerx Services Limited, Navi Mumbai   **Jul 2019 – Aug 2022**

Analyst/programmer

- Built and tested responsive UI components for multiple enterprise dashboards, ensuring cross-browser compatibility and performance optimization.
- Collaborated on automation scripts to reduce QA effort and improve system reliability.
- Tech Stacks – JavaScript, GIT.

Accenture India Limited, Navi Mumbai   **Jan 2019 – Jun 2019**

GIS Analyst

- Performed quality assurance and automation for ArcGIS-based network mapping, ensuring system reliability and data accuracy.
- Created scripts for data validation and error checks,
- Tech Stacks – HTML, ArcGIS, network analysis

SKILLS

State Management & Libraries: Tanstack Query, Redux, Context API.

System Design & Dev Practices: Modular Architecture, SDLC, Agile, Testing, Code Reviews.

Front-End Development: JavaScript, React JS, Responsive Design, React Hook form, Tailwind User Interface (UI) Design.

Tools & Technologies: GIT, GITHUB, GITLAB, CI/CD basics.

Other: Linux/Unix Basics, Agile Methodologies, Documentation

PROJECTS

Life Insurance Product UI Revamp

- Performance optimization using minimal state management with TanStack Query and reusable component design.
- Improved user experience across mobile and desktop platforms using Tailwind for responsive design.

Web Portal for Admin/Users

- Built a scalable portal with secure user authentication, role-based routing, and state management via Redux-Saga & RTK Query.
- Achieved smooth API integration and real-time data handling for better customer experience.

EDUCATION

B.E. (Computer Engineering), Mumbai University   **September - 2017**

Yadavrao Tasgaonkar College of Engineering and Management (Y.T.C.E.M.)

CERTIFICATIONS

ReactJS Mastery from Techpaathshala, Mumbai

Full Stack Web Development with Web3 from ALMA BETTER(Online)
