SUMMARY

I'm thrilled to embark on my journey in the dynamic world of Information Technology. With a strong foundation in HTML, CSS, Python, Power BI, SQL, and Excel, I'm excited to apply my skills and make a meaningful contribution to the IT sector. These tools equip me to handle both front-end development and data-driven tasks effectively. My goal is to work with dedication and enthusiasm, leveraging both my programming and analytical skills to drive impactful results.

SOFT SKILLS
