FULL STACK DEVELOPER | ANGULAR + .NET CORE WEB API

HTML | CSS | JAVASCRIPT |TYPE SCRIPT | ANGULAR18 | SQL SERVER | GIT | C# | .NET CORE WEB API

Full Stack Developer with closely 2.6 years of experience in **Angular (v16/18)**, **.NET Core Web APIs (C#)**, and **SQL Server**. Skilled in developing scalable, high-performance web applications and reusable front-end components. Experienced in designing secure **RESTful APIs**, optimizing **SQL queries** for performance, and following coding standards for maintainable solutions. Familiar with basic CI/CD concepts and **Agile** collaboration practices.

TECHNICAL EXPERTISE

- **Front End**: HTML5, CSS3, Angular (V16 & V18).
- **Back End:** ASP .NET Core Web API, RESTful API's, Entity Framework Core.
- **Languages:** JavaScript, C#.
- **Databases**: SQL Server.
- **Version Contro**l: Git & GitHub.
- **Frameworks:** Prime NG, Prime Flex, Angular Material, Chart JS & Bootstrap.
- **Mobile Frameworks:** Ionic.
- **Debugging & Deployment** of UI Web Applications**.**
- **API Platform**: Postman.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER - **Stone App Information Technologies**   **(Oct 2023 - Present)**

PROJECTS:

STONEAPP DEVELOPMENT & OPTIMIZATION:

- Migrated the legacy application (Rebuilt) from **AngularJS** to **ASP.NET Core Web API + Angular 18**, improving performance, scalability, user experience and Mobile compatibility.
- Developed reusable custom **Angular Components** and **Reactive Forms** in Angular to standardize UI elements and increase development efficiency.
- **Optimized API performance** by applying dependency injection, caching strategies, and efficient query handling.
- Performed hands-on **Debugging** across Angular frontend and .NET backend applications, systematically identifying root causes, resolving complex issues, and ensuring stable, high-performance delivery in production environments.
- Implemented optimized **SQL Server Stored Procedures** and functions to handle complex business logic, ensuring efficient data retrieval, secure transactions, and improved application performance.
- Developed scalable, **RESTful APIs** using **ASP.NET Core Web API**, enabling secure and efficient data exchange between Angular frontend and **SQL Server** backend.
- Integrated JWT-based authentication and role-based Authorization to secure endpoints and manage user access.
- **Integrated the RESTful APIs** with Angular front-end components and .NET 8 back-end services, ensuring secure data exchange and seamless communication between client and server.
- Built efficient Entity Framework Core queries for **CRUD** operations, leveraging **LINQ** and asynchronous patterns (async/await) for performance.

EDUCATION

Bachelor of Technology - Mechanical Engineering   **2017-2020**

Malineni Perumallu Educational Societies, Guntur (CGPA-7/10)

STRENGTHS

Excellent Communication & Verbal Skills, Can perform under pressure, Quick Learner, Critical Thinking.
.

CERTIFICATIONS

- Certified with ARTIFICIAL INTELLIGENCE with command prompts.
- Certified with IELTS (INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM) with 6.0 Band Score

LANGUAGE COMPETENCIES

Telugu: Native language, English: Fluent, Hindi: Fluent
