Experience Summary

- **2.5 years** of IT experience in Analysis, Design, Development, Implementation, Testing and Support of **Data Warehouse and Data Integration Solutions** using **Informatica PowerCenter** and **IICS (Informatica Intelligent Cloud Services).**

- Good knowledge of **Data Warehousing concepts and principles of Star Schema, SCD.**

- Proficient in Informatica **9.6.1 & 10.2.1, Oracle SQL and UNIX.**

- Have extensively worked in developing ETL program for supporting **Data Extraction, transformations** and loading using Informatica PowerCenter.

- Created complex mappings using Informatica transformations like **Filters, Aggregation, Joiner, Expression, Router, Lookup, Update Strategy, Union, and Source Qualifier.**

- Integration of various data sources like Oracle, Flat Files, CSV files into informatica power center.

- Experience in **performance tuning** the mapping.

- Performed **SCD Type1 & Type2** to maintain the Dimension Tables.

- Created **mapping parameters and variables** to load the stage and Data warehouse incrementally.

- Experience in creating **unconnected and dynamic lookups.**

- Created, Scheduled and configured **workflows, worklets and sessions** using **Informatica workflow manager.**

- Strong understanding of the principles of DW using **Fact Tables, Dimension Tables and star schema modeling**.

- Extensively worked on **Mapping Variables, Mapping Parameters.**

- Worked with different data sources like **Oracle and Flat files.**

- Team player, Motivated, able to grasp things quickly with analytical and problem solving skills.

- Good communications skills and team co-ordination. Involved in knowledge sharing and knowledge transfer to the new members of the project & Preparation of knowledge transfer documents.

Technical Expertise

ETL	IICS (Informatica Intelligent Cloud Services-CDI), Informatica Powercenter 9.6.1/10.2.1, Snowflake
RDBMS	Oracle 11g/10g/18c,
Database Tools	Oracle SQL Developer, Snowflake DB,
Tools	Informatica PC

Career Profile

Dates	Organization	Role
30/12/2024-present	TECHPINNACLE BIT SOLUTIONS PVT. LTD.	INFORMATICA ETL DEVELOPER
03/07/2023-27/12/2024	USK INFOTECH PVT. LTD.	INTERN- ETL DEVLOPER

Qualifications

Course	Institution	Board /University	Year of Completion	Aggregate (%)
B.E (Computer)	S.V.I.T Chicholi, Nashik	SPPU University Pune	2025	7.92 CGPA
HSC	Mamta English JR. Collage Tornala-Jodgavhan	Maharashtra State Board	2021	90.67%
SSC	Y.C. English High School, Mangrulpir	Maharashtra State Board	2019	67.20%

Project Profile #1

Customer	CareFirst (US)
Period	July 2025 TO Present
Description	The CareFirst is the largest healthcare insurer in the Mid-Atlantic region, serving around 3.4 million members. This project deals with the capturing policy and claim events to build a DataMart which contains facts, dimensions and aggregated tables. Project contains the flow from having a policy for policyholder to claiming the returns including every aspect of the hierarchy.
Role	**Informatica Developer**
Solution Environment	Operating system : Windows Language : SQL Databases : Oracle 11g Special Software/Tools : Informatica 9.6.1 Cloud Tools : IICS, Snowflake
Project Specific Tools	Informatica, Orace SQL Developer
Highlights	Responsibilities as a Informatica Developer: ● Understanding Business requirements. ● Have created ETL mapping, sessions, Workflows and Unix Objects as per The requirement. ● Created Mappings using various transformations like Update Strategy, Lookup, Router, Joiner, Aggregator, Filter, Lookup, Union and Expression. ● Implemented slowly changing dimension (SCD) Type 1 and Type 2 for Change data capture. ● Created, Scheduled and configured workflows, worklets and sessions using Informatica workflow manager. ● Involved in performance tuning of Informatica mappings. ● Designed and Developed Informatica Mappings and Sessions based on user

	requirements and ETL rules to load data from source Flat files to target tables
	• Contributed in Unit testing for developed mapping using sample data.
	• Created Un-connected Lookups and Dynamic Lookups.
	• Created Different types of Tasks and Sessions using Informatica Workflow Designer.
	• Created reusable mapplets/transformations embedding business logic.
	• Used Informatica Scheduler to schedule the Informatica Jobs.
	• Develop and test tasks, ensure adherence to agreed timelines, and communicate status of tasks to team lead.
	• Created Unit Test Documents.
	• Proficient in writing UNIX commands.

Project Profile #2

Customer	NEXT
Period	Jan TO July 2025
Role	Developer
Responsibilities	• To prepare design documents for ETL mappings. • Worked on Requirement of loading .CSV files to tables on Oracle using various Informatica transformations. • Created Informatica Mappings to build business rules to load data using transformations like Source Qualifier, Aggregator, Expression, Joiner, Connected and Unconnected lookups, Filters and Sequence, Router and Update strategy. • Have created ETL mapping, sessions, Workflows and Unix Objects as per the business requirements. • Worked with tools like Oracle SQL Developer to write queries and generate the result • Worked with Session Logs, Informatica Debugger for the workflows and session failures. • Configuring the Databases connections in Informatica • Verify the connection to the Databases. • Determine source, target or mappings bottle necks for slow mappings. • Prepared test cases for unit testing and unit test it.

Declaration

I hereby declare that the above mentioned Information is correct up to my Knowledge and I bear the responsibility for the correctness of the above mentioned particulars.
