SUMMARY

Front-end developer with around 3 years of experience building dynamic user interfaces and web applications with ReactJs, NextJs, JavaScript, HTML, and CSS. Also familiar with responsive web design, CSS frameworks and UI libraries.

EXPERIENCE

Arcgate   **May 2023 – Present**
Frontend Developer

- Single-handedly designed and developed from scratch the complete front end of a dynamic employee training portal using **ReactJs, Bootstrap 4** and **Figma**.
- Developed and maintained single-page web applications (**SPA**) using **NextJs**, **Tailwind CSS** for a payroll system
- Implemented **JWT** authentication and authorisation with **role-based** access control.
- Integrated third-party rich text editor with support for media upload.
- Integrated RESTful **APIs** and ensured code quality through standard practices and **Jest** unit testing.
- Addressed and **resolved UI issues** while also contributing to enhancements in various other projects.
- Collaborated with other developers to implement new features in a way that is consistent with existing codebase conventions in an **Agile** environment.

Chhorr – Designs By Aanchal   **2022 – 2023**
Frontend Developer

- Responsible for all the front-end related tasks of an e-commerce website.
- Developed campaign pages for marketing using **HTML** and **CSS**.

Publicis Sapient   **2021**
Frontend Developer Intern

- Worked on projects using HTML, CSS, Bootstrap, and JavaScript.
- Quickly learnt new technologies to complete tasks efficiently.
- Managed different aspects of projects design.
