CAREER SUMMARY

Highly motivated Associate Software Engineer with a strong focus on both **Manual and Automation testing.** Experienced in designing and executing automated test scripts and performing detailed manual test scenarios. Strong in identifying, debugging and resolving issues to improve test coverage and product quality. Eager to leverage my technical skills and grow further in any software domain.

TECHNICAL SKILLS & TOOLS

Programming Languages – **Java, Python**, Database – **SQL**, Operating System – **Windows, Linux,** Automation Tools & Frameworks – **Selenium WebDriver, PyTest, Phoenix, POM (Page Object Model),** Remote & Visualization Tools – **MobaXterm, mRemoteNG, vSphere Client,** Defect tracking tool – **JIRA**, Test case management tool – **Zephyr** , **Postman API** – Testing the API calls for the different integration.

PROFESIONAL EXPERIENCE

Mindteck India Ltd.   **Bangaluru, India**

Associate Software Engineer   April 2024 to May 2025

Project Name: ZENworks

Client Name: OpenText (Bangaluru)

Role and responsibilities:

- Worked on **ZENworks Configuration Management (ZCM)** for endpoint management, patching, and software distribution across multiple environments.

- Performed manual functional, regression, and exploratory testing to validate ZENworks features before automation and to ensure complete coverage of complex workflows.

- Developed and maintained automated test scripts using Selenium WebDriver, Python to validate ZENworks-related processes, including software deployment, configuration management, and patch updates.

- Improved test coverage by implementing automated test cases for ZENworks software deployment, patch management, and configuration management features, along with manual test scenarios for edge cases and newly introduced functionalities.

- Contributed to the successful deployment of ZENworks across multiple enterprise endpoints, ensuring smooth integration with other IT management tools and platforms.

- Used MobaXterm, mRemoteNG, and vSphere Client to access and manage remote servers securely.
