About me

MERN stack developer with hands-on experience building scalable web applications and RESTful APIs. Completed a 3-month software development internship at Sheryians Pvt. Ltd, where I worked with Node.js, Express.js, and MongoDB. Developed multiple full-stack projects, including an e-commerce platform with payment integration and an AI-powered chatbot. Seeking opportunities to contribute to innovative web development projects.

Technical Skills

- **Languages :** JavaScript (ES6+)
- **Frontend :** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Context API, Redux Toolkit
- **Backend :** Node.js, Express.js, REST APIs, JWT, OAuth, GenAI APIs
- **Database :** MongoDB, Mongoose, Aggregation, Indexing, localStorage
- **Tools :** Git, GitHub, Postman, Vercel

Internship

Sheryians Private Limited, Bhopal   *Full Stack Intern*

Project: Recruitment Website

- Led end-to-end development of the Candidate Profile module across both frontend and backend, working closely with the team through Git-based collaboration.
- Integrated AI-driven resume parsing with automated redaction of personally identifiable information (PII) to maintain data confidentiality.
- Created secure APIs to support profile creation, modification, and controlled updates of personal details, adhering to clean workflow standards.
- Built and improved frontend interfaces for profile management while engaging in active collaboration through code reviews, pull requests, and version control.

Education

Sant Singaji Institute Of Science Management   Aug 2018 – June 2021

B.A Computer Applications

Projects

CricCart E-commerce Platform   *[Live Preview]*

- Built a full-stack e-commerce application using the MERN stack with JWT-based authentication.
- Implemented complete product CRUD functionality managing 50+ products efficiently.
- Integrated Razorpay payment gateway for secure online payments and real-time order processing.
- Developed user cart functionality and a seller dashboard for seamless shopping and product management.

Food Recipe Website   *[Live Preview]*

- Built a React-based recipe application with full CRUD functionality and favorite management.
- Used Context API, React Router, and Tailwind CSS for state management and responsive UI.
- Implemented localStorage for persistent data handling and smooth user experience.
