Summary

Full Stack Developer specializing in **MERN stack** and **AI-driven applications**, with hands-on experience delivering **SaaS products** that improve user experience and business efficiency. Built end-to-end platforms (*AI Resume Builder*, *AI Video Generator*, *Farmify*) integrating **AI APIs**, **real-time systems**, and **scalable architectures**.

EDUCATION

Babu Banarasi Das University, Lucknow   **2021 − 2025**
*B.Tech - Computer Science and Engineering - **CGPA** - **7.5***   *Lucknow, Uttar Pradesh*

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL
Technologies/Frameworks: React.js, Next.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, Bootstrap
Developer Tools: Git, GitHub, VS Code, Intellij Idea

PROJECTS

Ai Resume Builder ⬀ | React, Tailwind CSS, Express Js, MongoDB

- Developed an AI-powered Resume Builder using the MERN stack (MongoDB, Express.js, React, Node.js) to simplify and enhance the resume creation process by using Google Gemini API.
- Implemented AI-driven features to automatically generate personalized summaries, highlighting users' skills and experiences.
- Designed intuitive resume creation and editing functionalities, allowing users to customize templates to suit individual career goals.
- Integrated a download feature enabling users to export their resumes in a professional format, ready for immediate use.

Ai Video Generator ⬀ | React, Next Js, Tailwind CSS, Express Js, MongoDB

- Built a platform to automatically generate YouTube Shorts from scripts using AI for script writing, image-to-video, speech-to-text, and text-to-speech.
- Automated 90% of video editing workflow, saving creators 3 hours per video.
- Integrated multiple AI APIs to automate video creation from text, image, and audio inputs, reducing manual editing to near-zero.
- Designed for scalable SaaS deployment, targeting marketers, agencies, and creators.

Food Delivery Website ⬀ | React, Express Js, MongoDB, HTML, CSS

- Developed a full-stack Food Delivery Web Application using MongoDB, Express.js, React.js, and Node.js, enabling users to browse restaurants, order food, and track deliveries.
- Implemented JWT-based authentication and role management for customers, delivery partners, and admins to ensure secure access and operations.
- Integrated Stripe payment gateway for seamless online transactions.
- Designed a responsive and intuitive UI/UX with React and Tailwind CSS, optimizing load time and user experience across devices.
