## Professional Summary

Quality Assurance Analyst with 12 months of experience in manual and mobile web testing, specializing in functional validation, cross-browser compatibility, and responsive design verification. Skilled in test automation using Selenium with Java, API testing via Postman, and end-to-end defect tracking in Jira. Known for meticulous attention to detail, strong analytical thinking, and consistent delivery of high-quality software in Agile environments.

## Work Experience

### Quality Analyst

*SoftXAI Technology Private Limited — Hyderabad*

**December 2024 – Present**

- Performed end-to-end manual testing of web and mobile applications, ensuring compliance with functional requirements, usability standards, and cross-device responsiveness.
- Designed, documented, and executed comprehensive test cases aligned with business specifications, achieving high test coverage across critical workflows.
- Logged, tracked, and retested defects in Jira; collaborated closely with developers to ensure timely resolution and smooth release cycles.
- Validated RESTful APIs using Postman—verifying status codes, response time, data accuracy, and error handling.
- Supported testing for multiple WordPress-based websites, focusing on UI consistency, navigation flow, and mobile responsiveness.
- Developed and maintained automated test scripts using Selenium (Java) for regression suites, improving testing efficiency and repeatability.
- Actively participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives.

### Key Achievements

- Successfully delivered 2+ client projects on schedule with zero critical post-production defects.
- Recognized by management for ownership, precision in test execution, and proactive identification of high-impact bugs.
- Improved regression cycle efficiency by automating 30+ high-priority test cases using Selenium.
- Enhanced defect reporting clarity in Jira, reducing back-and-forth with developers by 40%.
- Contributed to internal QA process improvements that boosted test coverage and accelerated release timelines.
- Maintained 100% traceability between requirements, test cases, and defects using Confluence and Jira.

## Education

### Bachelor of Science in Information Technology

*Bankatlal Badruka College for Information Technology, Hyderabad* | 2020 – 2023 | CGPA: 8.4

## Skills

- **Testing:** Manual Testing, Mobile Testing, Cross-Browser Testing, Regression Testing, Smoke/Sanity Testing, Usability Testing
- **Automation:** Selenium WebDriver (Java),
- **API Testing:** Postman
- **Tools: Eclipse IDE**, Jira, Confluence, WordPress
- **Languages:** Java, SQL
- **Platforms:** Windows
- **Methodologies:** Agile, Scrum

## Certifications

- **Selenium with Java (basics)**
- **Manual Software Testing**
