EDUCATION

2023-2025

METROPOLITIAN INSTITUTE OF TECHNOLOGY AND MANAGEMENT

- B.Tech in Computer Science and Engineering

TECHNICAL SKILLS

Data Analytics:

- **Business Intelligence & Data Visualization:** Power BI Dashboard Design, Data Visualization & Reporting, Interactive KPI Dashboards
- **Database:** SQL (Joins, Subqueries, Aggregations)
- **Tools & Platforms:** Power BI, Excel (Pivot Tables, Charts, Lookups)
- **Analytics & Reporting:** Data Cleaning & Transformation (Excel, Power BI), ETL Processes

PROFILE

Data Analyst skilled in building interactive Power BI dashboards and performing data-driven analysis to support decision-making. Proficient in SQL, Excel, and data visualization, with experience analysing trends, KPIs, and operational metrics to support performance insights and operational planning. Strong communicator with the ability to explain analytical findings clearly and collaborate effectively in team environments.

INTERNSHIP

Nano Soft IT Solution

Python Intern - Remote   2024

- Collaborated with the development team to design, build, test, and debug software solutions aligned with project goals and technical requirements.
- Contributed to problem-solving discussions, offering ideas that improved functionality, efficiency, and overall system performance.
- Assisted in implementing new features, ensuring seamless integration with existing systems while maintaining scalability.
- Enhanced software responsiveness by identifying bottlenecks, applying efficient algorithms, and refining system architecture.

PROJECT EXPERIENCE

UBER RIDE SERVICES DASHBOARD

- Designed and developed a comprehensive Power BI dashboard for Uber Rickshaw services, visualizing booking trends, revenue metrics, and customer ratings across multiple locations.
- Implemented interactive charts and filters to track ride status, driver performance, and pickup/drop hotspots, enabling data-driven decision-making and operational insights.

GOLD PRICE ANALYSIS DASHBOARD

- Developed and implemented an interactive Power BI dashboard to visualize multi-year gold price trends, peak months, and KPIs, enabling data-driven insights for investment decisions.
- Integrated dynamic charts and tables to highlight average, highest, and lowest gold prices, with year-wise and month-wise breakdowns for enhanced analytical clarity.

CERTIFICATIONS

Software Engineering Job Simulation – Accenture (via Forage), July 2025

AI for Beginners – HP LIFE (HP Foundation), July 2025

ACMEGRADE Training Certification (Web DevelopmentDevelopment)
