SUMMARY

Aspiring Quality Engineer with expertise in **Manual and Automation Testing**. Skilled in tools like **Postman**, **Selenium WebDriver,** and **JIRA**, with a strong grasp of **SDLC** and **Agile methodologies.** Looking for Fresher Roles as a Quality Engineer.

SKILLSET

Automation Testing Tools: Selenium WebDriver, Postman

Continuous Integration Tools: Jenkins
IDE: Eclipse

Test Management and DevOps Tools: Git, Maven

Frameworks: TestNG and Cucumber (**BDD**), POM

Programming Languages: Java, SQL.

Testing & Quality Assurance: Manual Testing, Automation Testing, Black Box Testing, API Integration, End to End Testing, Application Testing, UAT, Regression Testing, Functional Testing, System Integration Testing (SIT).
Test Management & Reporting: Test Plan Preparation, Test Strategy Worksheet (TSW), Test Estimates, Test Case Design.
Software Development & Testing Lifecycle: SDLC, STLC, Bug Life Cycle, Agile Methodology, Waterfall Model.
Soft Skills: Problem Solving, Team Collaboration, Leadership, Attention to Detail, Effective Communication.

WORK EXPERIENCE

Quality Engineer Intern   *Mar 2025 – Jun 2025*
Apna bot   *Remote*

- Designed and executed **automation scripts** using tools like **Selenium** for testing processes of chatbot functionalities.
- Performed **API integration testing** using **Postman** and validated RESTful APIs for seamless backend integration.
- Identified, documented, and tracked defects using **JIRA,** providing detailed reports to the developers.
- Performed **end-to-end testing** to validate user interaction flows and confirmed that the chatbots provided accurate and context-aware responses.
- Assisted in collecting **and analyzing client feedback**, ensuring that the deployed chatbots met or exceeded user expectations.
- Validated the **chatbot's performance** across different devices and platforms, including desktop and mobile web browsers.
- Conducted **regression tests** after updates to ensure new features or fixes did not negatively impact existing chatbot functionality
- Manually tested the chatbot for different prompts and intents, documenting the outputs.

PROJECTS

Stock Accounting Testing

- Developed a stock accounting web application for inventory management.
- Conducted end-to-end testing of the application to ensure **accurate reporting** and **functionality**.
- Implemented quality assurance processes to identify and resolve defects.
- Collaborated with cross-functional teams to gather requirements and deliver project milestones.

EDUCATION

Q Edge Technologies Training Institute, Hyderabad

Institute of Engineering & Science, IPS Academy   *Oct 2020 – Jul 2024*
Bachelor of Technology in Computer Science &   *Indore*
Information Technology
