OBJECTIVE

Skilled Software Developer specializing in MERN stack development and building scalable web applications. Proficient in optimizing performance and ensuring high-quality code to deliver impactful solutions.

EXPERIENCE

Associate Software Trainee   May 2025 – Present

Technogen India Pvt Ltd   *Hyderabad*

- Developing the company website from scratch using React.js, focusing on clean UI, responsive design, and reusable components.

- Implementing core pages and interactive features while ensuring smooth performance and user-friendly navigation.

- Collaborating with the team to refine requirements, enhance existing modules, and maintain code quality using GitHub.

Full Stack Developer Intern   Sep 2024 – April 2025

Techno Tide Technologies Pvt Ltd   *LB Nagar, Hyderabad*

https://new-blue-iota.vercel.app

- Developed a full-stack client website for an architecture company using the MERN stack (MongoDB, Express.js, React.js, Node.js).

- Designed and built key frontend pages: About, Services, Projects, Blogs, FAQs, Contact, and Login — with a fully responsive UI using React.js and Bootstrap.

- Implemented a basic user login system using JWT, used to track user activity on the site.

- Created a separate Admin Dashboard application for content management; only admin has access to add/edit services, projects, blogs, and FAQs.

- Connected both frontend and admin panel to a shared backend API for real-time content updates reflected on the website.

- Deployed the main site on Vercel and maintained codebase using GitHub for version control and collaboration.

- Ensured clean and scalable code through reusable React components and RESTful API design.

- Followed best practices for performance optimization, mobile responsiveness, and user experience improvements.

EDUCATION

Diploma in Electronics And Communication Engineering

Government Polytechnic College Mahabubnagar (9.85)   2020 - 2023

TECHNICAL SKILLS

Programming Languages	HTML5, CSS3, JavaScript
Frameworks/Libraries	React.js, Bootstrap, Node.js,Express.js
Databases	MongoDB
Developer Tools	VSCode, Git

PROJECTS

E-Shop (Link)   *Technologies Used: React.js, Bootstrap*

- Designed and developed a fully responsive static e-commerce website layout using React.js and Bootstrap.

- Built key UI sections including homepage, product listings, and promotional banners with modern styling.

- Ensured seamless responsiveness across all screen sizes using Bootstrap grid system and media queries.
