SUMMARY

Results-driven Full Stack Developer with 3+ years of experience in designing, developing, and deploying scalable web applications. Proficient in **Java, Spring Boot, Angular, SQL Server, and AWS Cloud Services.** Skilled in front-end and back-end development, RESTful API design, microservices architecture, and database management. Adept at delivering robust, scalable, and maintainable applications that drive business value and enhance user experience.

TECHNICAL SKILLS

Backend: Java, Spring Boot, Spring Security, Microservices Architecture, Spring Data JPA, JWT Authentication, REST APIs, Monitoring (Spring Boot Actuator)

Frontend: Angular, TypeScript, JavaScript, HTML, CSS

Databases: SQL Server, Amazon DynamoDB, Amazon RDS, SharePoint

Cloud: AWS (EC2, S3, RDS, Lambda, ECR/ECS), Docker, Kafka

DevOps: CI/CD, GitHub Actions

Tools: Git, Maven, Postman, Swagger

Other: JWT Authentication, Design Patterns, OOP

EXPERIENCE

Cognizant India Pvt Ltd   Aug 2023 – Present
Associate — Full Stack Developer

Designed and developed scalable web applications using **Java, Spring Boot, Angular, and SQL** to manage insurance policies, claims, and customer interactions.

Implemented **RESTful APIs** for smooth integration between front-end and back-end systems.

Worked extensively with **SQL Server** for schema design, query optimization, and database management.

Built middleware components for application integration and secure data exchange.

Implemented **JWT authentication** and role-based authorization for secure access.

Provided technical support and troubleshooting for production applications deployed on AWS.

Technologies: Java, Spring Boot, Angular, SQL, AWS (EC2, S3, RDS, ECS, ECR).

Cognizant India Pvt Ltd   Jul 2022 – Aug 2023
Programmer Analyst

Enhanced user experience by developing Angular front-end with enterprise design systems, improving user engagement by 20%.

Enhanced system responsiveness by implementing asynchronous REST APIs using **@Async and CompletableFuture** in Spring Boot, **reducing latency by 30%.**

Optimized performance by resolving bugs, improving accessibility, and **reducing load time by 50%.**

Worked with API Management (APIM) and AWS services for secure deployments.

Collaborated in an Agile Scrum team, contributing to a 90% on-time delivery rate of high-quality features.

Technologies: Angular 19, Java, Spring Boot, SQL, AWS (ECS, ECR, API Gateway, Lambda, CloudWatch).

Cognizant India Pvt Ltd   Jan 2022 – Jul 2022
Programmer Analyst Trainee

Developed an internal **Success Story Portal** using Angular (front-end) and Spring Boot (back-end) to showcase team achievements and project success stories.

Built and integrated **REST APIs** with **SQL database** for storing stories, comments, and user interactions.

Implemented features such as role-based access, commenting system, and team tagging for collaboration.

Deployed the application on AWS (S3, EC2, RDS, ECS, ECR) ensuring scalability and reliability.

Technologies: Angular 16, Spring Boot, SQL, AWS (S3, EC2, RDS, ECS, ECR).

EDUCATION

Government College of Engineering, Amravati   2018 – 2022
B.Tech in Information Technology, CGPA: 7.83

CERTIFICATIONS

AWS Certified Cloud Practitioner

Capex - Blue Bolt Hackathon Winner (2nd Runner-up among 18 teams)
