Projects

Handy Home – Home Services Platform | MERN Stack (MongoDB, Express.js, React.js, Node.js), Git
April 2025
• Developed a full-stack home service platform connecting customers with service providers for plumbing, electrical work, cleaning, and other household needs.
• Implemented secure user authentication, service booking, real-time status updates, and payment integration for a seamless customer experience.

Furry Friends – Pet Adoption & Rescue Portal | .NET, React.js, SQL Server, Git
May 2025
• Designed and developed a pet adoption and rescue portal enabling users to browse available pets, register adoption requests, and manage rescue operations.

• Implemented role-based access, pet listing management, and responsive UI for smooth navigation across devices.

SportVerse – Sports Team Formation & Live Bidding Platform | Spring Boot ,React.js, MySQL
July 2025
• Built a sports management platform for forming teams and conducting live player auctions with WebSocket-based real-time bidding updates.
• Integrated secure authentication, player/team registration, bidding algorithms, and admin dashboards for tournament management.

Certifications
_____

• CDAC PG Diploma in Advanced Computing
• Python Full Stack Development
• IBM Python

• Java Development
• AWS Cloud Quest

Leadership & Extra-Curricular
_____

• Team Lead (10 members) at CDAC: Helped team members complete all modules successfully, ensured everyone worked together towards our common goal, and provided support whenever needed to overcome challenges.
• Professional writer on an online book reading platform, with over **1 million+** cumulative reads across published works, showcasing storytelling skills, creativity, and strong audience engagement.
