DANISH ANSARI

Noida, Delhi | danish.devx3@gmail.com | +91-7631625270 | linkedin.com/in/danishansaridev | github.com/Danish-Devx3

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in building scalable web applications using the **MERN stack**, **Next.js**, and modern DevOps workflows. Proficient in designing secure APIs, optimizing performance, and automating deployment with Docker and GitHub Actions. Delivered production-grade solutions across internships and freelance projects impacting real users. Passionate about **Generative AI**, automation, and developing high-performance, user-centric applications.

SKILLS

Frontend: React.js, Next.js, TypeScript, Zustand, Zod, Tailwind CSS, Tanstack Query, Responsive Design
Backend: Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, OAuth, Better Auth
Databases: MongoDB, PostgreSQL, Prisma ORM, Mongoose, Supabase, Firebase
DevOps/Deployment: Docker, GitHub Actions, CI/CD, Vercel, Netlify, Nginx
Testing: Jest, Vitest, Cypress, Postman
Tools & Practices: Git, GitHub, Agile Development, Code Review, Problem Solving, Collaboration

PROFESSIONAL EXPERIENCE

Backend Developer Intern *BYTECOMMERCE PVT LTD — Apr 2025 – Jun 2025 (Remote)*

- Engineered and optimized RESTful APIs with Node.js and Express.js, reducing MongoDB query latency by 30% through index optimization and query refactoring.
- Developed secure authentication and authorization flows (JWT, password reset, and email verification) improving platform security and user trust.
- Authored detailed API documentation and Postman collections for 20+ endpoints, streamlining testing and collaboration across backend teams.

Frontend Developer (Freelance) *Primeox — Jan 2025 – Mar 2025 (Remote)*

- Designed and developed responsive and accessible UIs using React.js, Zustand, and Zod validation, ensuring WCAG compliance across all pages.
- Integrated APIs and optimized data fetching with Tanstack Query, improving load times and client performance by 40%.
- Delivered SEO-optimized, mobile-first landing pages, increasing organic user engagement by 25% and improving conversion rates.

PROJECTS

Notive – Collaborative Note-Taking App | *Next.js, TypeScript, PostgreSQL, Better Auth* GitHub | Live

- Built a real-time collaborative note-taking platform supporting markdown and rich-text editing via TipTap editor.
- Integrated **Google OAuth** and **Better Auth** with email verification and password recovery using Resend API.
- Architected secure and scalable backend using PostgreSQL and Prisma ORM, achieving sub-150ms response times for major endpoints.

Shotsy – AI Video Generator | *Next.js, Tailwind CSS, Remotion* GitHub

- Engineered an AI-powered video generation tool that converts text prompts into short-form videos using Murf AI, AssemblyAI, and Google Gemini.
- Containerized the app with Docker and implemented CI/CD pipelines via GitHub Actions for automated deployment to Vercel.
- Conducted unit, integration, and E2E testing with Jest, Vitest, and Cypress achieving 95% test coverage.

CodeDrop – Code Snippet Sharing Platform | *Next.js, Node.js, MongoDB, TypeScript* GitHub | Live

- Developed a secure code-sharing platform with JWT authentication and role-based access control for granular permissions.
- Implemented MongoDB aggregation pipelines enabling advanced search and tag-based filtering for 500+ shared code snippets.
- Deployed production-ready app on Vercel and validated all endpoints through Postman API tests.

EDUCATION

Bachelor of Computer Applications (BCA) Magadh University
Jul 2023 – Aug 2026 (Expected)
Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Development

CERTIFICATIONS

React Certified Developer – Scaler Academy View Certificate
Node.js Certified Developer – Scaler Academy View Certificate
